**Description:** The U.S. Department of Energy (DOE or the Department) is issuing a request for information ("RFI") to solicit public input regarding certain aspects of its energy conservation standards for manufactured housing. The public input received is anticipated to help guide DOE's further refinement of certain aspects of its standards for manufactured housing, as well as the supporting technical analysis, including anticipated costs and benefits. It may also serve as the basis for restructuring the approach and framework for standards that would apply to manufactured housing. DOE also seeks any additional information from the industry and public which may further inform the agency's views and regulatory program.

Written comments and information are requested and will be accepted on or before 2 December 2025.

<sup>1</sup> This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final/modified measure and/or interpretive guidance can be obtained.
