Description: Direct final rule - In May 2024, the U.S. Consumer Product Safety Commission (CPSC or Commission) published an update to the consumer product safety standard for infant and cradle swings under the Consumer Product Safety Improvement Act of 2008 (CPSIA). The standard incorporated by reference ASTM F2088-24, Standard Consumer Safety Specification for Infant and Cradle Swings, the voluntary standard for infant and cradle swings that was in effect at the time. ASTM has now issued a revised standard, ASTM F2088-25. Consistent with the CPSIA, this direct final rule updates the mandatory standard to incorporate by reference ASTM's 2025 version of the voluntary standard.

¹ This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final/modified measure and/or interpretive guidance can be obtained.

The rule is effective on 25 July 2026, unless CPSC receives a significant adverse comment by 20 May 2026. If CPSC receives such a comment, it will publish a document in the Federal Register, withdrawing this direct final rule before its effective date. The incorporation by reference of certain material listed in this rule is approved by the Director of the Federal Register as of 25 July 2026.
