Description: On 24 April 2026, the California Department of Toxic Substances Control (DTSC) initiated modifications to the rulemaking listing manual dish detergents and shampoo containing 1,4-dioxane at concentrations greater than 1 part per million (ppm) as Priority Products.

The modifications to the proposed regulations include the addition of subsection 69511.11(c)(9) and subsection 69511.12(c)(9) to more accurately communicate DTSC's determination that 1,4-dioxane is a persistent, mobile, and toxic chemical. The modifications also add the species of observation to the associated toxicological endpoints where they are applicable. Copies of the modified proposed regulations and initial proposed regulations noticed on 16 January 2026, are available on DTSC's website.

<sup>1</sup> This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final/modified measure and/or interpretive guidance can be obtained.

DTSC is currently accepting public comments on the modifications to the proposed regulations until 11 May 2026. To view the proposed regulations and supporting documents, please visit [CalSAFER](#) or the [Safer Consumer Products \(SCP\) website](#).

WTO Members and their stakeholders are asked to submit comments to the [USA TBT Enquiry Point](#) by or before [4pm Eastern Time](#) on 11 May 2026. Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders will be [shared with DTSC](#) if received within the comment period.

If you have questions or concerns, please contact [SaferConsumerProducts@dtsc.ca.gov](mailto:SaferConsumerProducts@dtsc.ca.gov).
