ACKNOWLEDGEMENT

First and foremost, praises and thanks to the almighty Allah, for his showers of blessings which enables Shushilan to start and carry out the training program.

Shushilan would like to express its deepest and sincerest gratitude, immeasurable respect to the honourable Project Director, BRCP-1 Mr. Mijanur Rahman, Joint Secretary, Ministry of Commerce (MoC) for providing indispensable guidance and opportunity to arrange all the training programs and workshops as well as constructive criticism, contribution in stimulating suggestions and encouragement in every aspect of the training programs and workshops from beginning to the completion.

Furthermore, Shushilan would also like to acknowledge with much appreciation the crucial role of the Project Manager, Dr. M Shahab Uddin who has invested his full effort in guiding the team in achieving the goal.

A special gratitude to Md. Khalilur Rahman, honourable Deputy Secretary of MoC and Md. Sirajul Islam, Financial Expert of BRCP-1 for attending the programs as special guest and for their valuable speech.

Shushilan also like to thank Shaheena Sultana, Gender Specialist BRCP-1 whose contribution in stimulating suggestions, encouragement and constructive criticism helped to run the workshop successfully.

Shushilan have to provide special thanks to all UNO, DD and UAO of DAE from several upazilla and districts for their kind support to organize the training programs and workshops.

Special thanks go to Mustafa Bakuluzzaman, Project Focial Person, Dr. Sreekanta Sheel, the Team Leader, the Lead Training Expert, Dr. S. M. Fakhru Islam, Agro-Processing Expert and Mr. Md. Abdul Mannan, Value Chain Expert for their active roles and guidance, and constant supervision as well as for overall conducting the training programs and workshops and also for their support in completing the whole programme.

Shushilan is highly indebted to the project staffs including communication officer, master trainers for their kind co-operation and hard work to complete the program successfully. Last but not least, many thanks go to all the selected trainees, who attended the training programs and workshops in time and spent their valuable time as well as took part in all activities spontaneously.

Finally, Shushilan apologize all other unnamed who helped in various ways to complete the assigned project.

Mostafa Nuruzzaman
Chief Executive
Shushilan

KEY TERMINOLOGY

GAP (Good Agriculture Practices): Good Agricultural Practices or GAPs are voluntary guidelines for produce farmers to reduce the risk of microbial contamination related to food borne illnesses on their farms.

SOP (Standard Operating Procedure): A standard operating procedure (SOP) is a set of step-by-step instructions compiled by an organization to help workers carry out routine operations.

SPS (Sanitary & Phyto-sanitary standards): Sanitary and phytosanitary (SPS) measures are quarantine and biosecurity measures which applied to protect human, animal or plant life or health from risks arising from the introduction, establishment and spread of pests and diseases and from risks arising from additives, toxins and contaminants in food and feed.

GMOs (Genetically Modified Organisms): A genetically modified organism (GMO) is an animal, plant or microbe whose DNA has been altered using genetic engineering techniques. For thousands of years, humans have used breeding methods to modify organisms. Corn, cattle, and even dogs have been selectively bred over generations to have certain desired traits.

HACCP (Hazard Analysis Critical Control Point): HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling to manufacturing, distribution and consumption of the finished product.

GMP (Good manufacturing practices): Good manufacturing practice (GMP) is a system for ensuring that products are consistently produced and controlled according to quality standards. It is designed to minimize the risks involved in any food/pharmaceutical production that cannot be eliminated through testing the final product.

GHP (Good Hygienic Practices): Good Hygiene Practices are the set of requirements to prevent contamination of food in order to provide safe food to the consumers. Food borne illnesses can result from contamination due to improper practices like when there is lack of environmental hygiene and poor sanitation.

CCP (Critical Control Point): A critical control point (CCP) is a step in the food production process where preventative measures can be applied to prevent, reduce or eliminate a food safety hazard, such as bacterial growth or chemical contamination.

ZEEC (Zero Energy Evaporative Cooler): ZEEC is one types of cooling by evaporation. It is an on-farm rural oriented storage structure which operates on the principle of evaporative cooling and has been constructed using locally available raw materials such as bricks, sand, bamboo, rice straw, vetiver grass, jute cloth etc.

Vacuum Frying Technology: Vacuum frying is a reasonably new technology which uses lower pressure and temperature rather than atmospheric deep-fat frying to improve the quality attributes of food products.

BSTI (Bangladesh Standard and Testing Institution): Bangladesh Standards and Testing Institution (BSTI) is a government agency under the Ministry of Industries constituted for the purpose of controlling the standard of service and quality of the goods.

FSM (Food Safety Module): FSM is to minimize harmful effects of production and post-production practices on the safety of the produce.

TSS (Total Soluble Solid): The TSS content of the fruit is usually obtained from assessing the degrees Brix of the fruit. The TSS or sugar content measures and includes the carbohydrates, organic acids, proteins, fats and minerals of the fruit.

FSMS (Food Safety Management System): A FSMS is a systematic approach to controlling food safety hazards within a food business in order to ensure that food is safe to eat. "Food Safety Management System (FSMS)" means the adoption Good Manufacturing Practices, Good Hygienic Practices, Hazard Analysis and Critical Control.

Food safety: Food safety refers to routines in the preparation, handling and storage of food meant to prevent foodborne illness and injury.

Food Security: Food Security means that all people at all times have physical, social, and economic access to sufficient, safe and nutritious food that meets their food preferences and dietary needs for an active and healthy life.

Hygiene and Sanitation:

Sanitation is more than just toilets, it encompasses the facilities, behaviors, and services that prevent diseases caused by contact with human waste. Hygiene refers to behaviors that can improve cleanliness and lead to good health.

Value Chain: A value chain is a business model that describes the full range of activities needed to create a product or service.

SME (Small and Medium Enterprises): Small and medium-sized enterprises (SMEs) are non-subsidiary, independent firms which employ fewer than a given number of employees.

EIA (Export Inspection Agency): An Export Inspection Agency is involved in in-process quality control, consignment-wise inspection.

Business Plan & Business Skills:

A business plan is a written document describing a company's core business activities, objectives and how it plans to achieve its goals. Good business plans should include an executive summary, products and services, marketing strategy and analysis, financial planning, and a budget. Business skills include all the necessary skills to be successful in managing a business.

RJSC (Registrar of Joint Stock Companies and Firms): The Registrar of Joint Stock Companies and Firms (RJSC) is the sole authority which facilitates formation of companies etc.; and keeps track of all ownership related issues as prescribed by the laws in Bangladesh.

BCR (Benefit-Cost Ratio): A benefit-cost ratio (BCR) is an indicator showing the relationship between the relative costs and benefits of a proposed project, expressed in monetary or qualitative terms.

TCP (Total Cost of Production): Total Cost of Production TCP defined as sum of fixed cost plus variable costs make the total cost of production.

ICT (Information and communications technology): Information and Communication Technologies (ICTs) is a broader term for Information Technology (IT), which refers to all communication technologies including the internet, wireless networks, cell phones, computers, software, middleware, video-conferencing, social networking, and other media applications.

EXECUTIVE SUMMARY

Bangladesh Regional Connectivity Project-1 (BRCP-1) financed by IDA credit is being jointly implemented by the Bangladesh Land Port Authority (BLPA), National Board of Revenue (NBR) and Ministry of Commerce. The project has 3 components: a) Develop pilot programs to support female traders and entrepreneurs, b) Capacity development support for the national trade and transport facilitation committee. c) Improvement of Bangladesh trade portal and to set up a national enquiry point for trade. The Ministry of Commerce is implementing the second component of the project as a separate technical assistance project. The overall objective of this technical assistance project is to strengthen trade related institutional capacity in order to ensure active and sustainable cooperation among trade related stakeholders and economic empowerment of women traders. This technical assistance project applied a part of the IDA credit for procuring consulting/training management services to design and implement a training program assignment entitled “Designing and Implementing Training Program for Increasing Women’s Participation in the Agro-processing Sector in Bangladesh” for increasing women’s participation and facilitating their export potentials in the agro-processing sector in Bangladesh to address the above challenges particularly the capacity building gaps of the sector. Considering the previous experience and strength, Shushilan expressed its interest to implement the assignment and finally had been awarded the assignment and signed contract on 22-12-2019. The assignment targets to implement in total 42 batches of training including 2 pilot training courses, however at the later stage new 5 batches were added resulting a total of 47 batches.

The objectives of this assignment are to develop a training curriculum and implement training on technical know-how to enhance women’s role in the agro-processing sub-sector and its export. The scopes of the assignment with the specific tasks are: i) Refinement of training needs primarily identified by the project, ii) Develop and design a training program or curriculum and iii) Implementation of training curriculum

The targeted trainee beneficiaries under the assignment comprise minimum 75% female entrepreneurs or representative of relevant bodies. However, a quota of no more than 25% male entrepreneurs or representative was set for training to encourage discussion and capacity building and yet to allow these women to learn from the male participants as well. Basically, the entrepreneurs/ representatives who are directly involved in various stages of the horticultural processing value chain were incorporated in the training programs. A total of 1175 beneficiaries were undertaken covering 8 divisions, 21 districts, 36 Upazila and 47 batches.

The COVID-19 pandemic in Bangladesh is part of the worldwide pandemic of coronavirus disease 2019 (COVID-19). It was very much challenging to conduct a training program during this corona virus pandemic. To handle this COVID situation the following measures were followed: i) Use of digital thermometers to check the body temperature of all participants, ii) Providing enough mask, iii) Providing hand sanitizers to comply with improved quality hygiene and iv) Keeping a safe distance from one participant to another.

Component 1: Refinement of Training Needs Primarily Identified by the Project: The objectives of the training needs assessment study was to assess training needs of the agribusiness entrepreneurs in order to prepare a training module under the assignment on the technical know-how to enhance women’s role in the agro-processing sub-sector and its export. The assessment study was designed based on the collection of secondary data, desk analysis and primary data. Primary data were collected through FGDs, KIIs and survey of sample vegetables and fruits entrepreneurs. The selected agro-commodities were winter and summer vegetables and summer fruits that included mango, banana, guava, and lemon. The selected study areas were Tangail, Narsingdi, Manikgonj, Jessore, and Rajshahi districts. Data were collected from five categories of entrepreneurs: 1) Farmers, (2) Local traders, (3) Wholesalers, (4) Processors and (5) Exporters. A representative sample size of 260 respondents was used for data collection through interviews.

Recommendations the Need Assessment Study: The study revealed that the entrepreneurs engaged in vegetable and fruits business are facing a number of problems. On the basis of the findings of the study, the training needs of the entrepreneurs were identified. Under the assignment of BRCP-1, designing and implementing training program in the above issues are important to address for improving their knowledge and skill so that they can improve their operational efficiency, competitiveness, profitability, sustainability and could foster growth in agriculture and food processing sector. The recommended topics were included in the training programme

Component 2: Development/ Designing of The Training Curriculum: A training module along with the manual was designed on the basis of training aspects outlined under ToR, inception meeting resolution with the project authority and need assessment survey findings. A 5-day long training programme for increasing women's participation in the agro-processing sector in Bangladesh was developed. The basic objective of this training course is to enhance women's role in the agro-processing sub-sector and its export. More specifically, after this course, the participants will be aware on:

- i. *Good Agricultural Practices (GAP) for selected fruits and vegetables*
- ii. *Pre-harvest factors affecting post-harvest management of fruits and vegetables*
- iii. *Harvesting, postharvest handling, packaging, transportation and storage of fruits and vegetables*
- iv. *Using secondary processing technologies for fruits and vegetables focusing intermediate and shelf-stable processed products having market potentiality*
- v. *Maintaining Quality and food safety assurance (including Sanitary and Phyto-sanitary standards, GMP, HACCP rules and regulation) for exporting/importing fresh fruit and vegetables*
- vi. *Value chain management, identification of major constraints and their solution*
- vii. *Developing Stakeholder Relationship (Facilitating formation of network/ platform of value chain actors and Application of Information and communications technology)*
- viii. *Finding out various ways to domestic market access and marketing for fruits and vegetables, contract farming and group-based marketing*
- ix. *Taking steps of export marketing and export market potentialities for selected fresh and processed fruits and vegetables*
- x. *Developing business plans (appraisal) and facilitating access to finance, regulations on government procedure for starting-up agro-processing firms, product development and productivity improvement*
- xi. *Developing Soft skills/ Business skills (communication, negotiation, time-management, leadership, sales and customer relationship)*
- xii. *Conducting Cost-Benefit Analysis for an Agri-business enterprise related to fresh fruits and vegetables*

Workshops on training modules and implementation plan were duly held on training module & manual and implementation plan and based on the comments/suggestions provided by the participants the training modules and manual was finalised. The training modules and manual was then translated into Bengali and 1200 copies were printed before starting the core training programme. Two batches of the training programme were piloted in Dhaka and Jessore. An independent monitoring and evaluation mechanism for the training programme was also developed after holding the second batch of the pilot training program. Four Trainers with the relevant academic backgrounds and experiences have been recruited followed by conducted ToT for them. In addition, they have been provided necessary advices and guidelines so that they could be fruitfully able to conduct the training sessions.

Component 3: Implementation of the Training Programme: Among the 1175 trainees there were 881 females and 294 males. Mainly female and male participants working along the value chain in the agro-processing subsectors participated in the training program. Among the 1175 trainees, 244 of them were involved in grading, packaging and marketing, 241 participants were related to vegetable cultivation, processing and marketing, 181 participants were engaged in

sorting, grading and packaging, 137 participants involved in processing and packaging of fruits and vegetables, 95 participants involved in vegetable cultivation and marketing, 81 participants worked with marketing and cultivation, 72 participants involved in vegetable cultivation, 71 participants worked with grading, sorting and packaging, 33 participants were engaged in processing and marketing, 20 participants involved in fruits cultivation, processing and marketing.

Potential Entrepreneur Selection Methodology for Future Activities: Total 1175 participants were attended in these 47 training programs. Among them, about 450-470 participants are selected for future activities, from each batch only the first 5-7 participants had got the opportunity of attending the post training refreshers workshop.

Area & Group Based Customized Entrepreneurships: The participants were divided into three to five groups according to their located area. Then they were set upon five customized entrepreneurships according to their need and interest. In some cases, one or two groups set up the the same entrepreneurship. Followings are the entrepreneurships activities found from the training batches:

- i) Secondary processing of fruits & vegetables (jam, jelly, pickle, sauce),
- ii) Cold storage installation for fresh fruits & vegetables (Narsingdi, Tangail, Jashore, Gazipur, Savar),
- iii) Mushroom cultivation, processing and marketing (Jhenaidah, Jashore),
- iv) Spice processing and marketing (Gazipur, Bogura, Jashore),
- v) Season basis honey production and marketing (Tangail, Jashore),
- vi) Secondary processing of potato, mango and tomato (chips, powder, pickle, sauce) and marketing (Rangpur, Bogura, Rajshahi, Jashore, Magura & Chapainawabganj),
- vii) Production and marketing of vermicompost (Bagura, Magura, Jashore),
- viii) Pack house for fresh fruits & vegetables (Narsingdi, Savar, Rajshahi),
- ix) Ready to cook (vegetables) or ready to eat (fruits) services (Narsingdi, Dhaka, Savar),
- x) Primary processing, marketing and export of fruits and vegetables,
- xi) Cultivation and marketing of high value fruits and vegetables (Savar, Jashore).

Necessary Assistancess for Implementing the Customized Actions: To set up or implement the customized entrepreneurships the entrepreneurs need some assistances from the government and authorized bodies. Special requirements of each group to implement the concerned entrepreneurships are:

- ✓ Managing loan with or without loan from the authorized body
- ✓ Linkage with land lease group
- ✓ Making linkage between farmers and processors/exporters with the help of NGO, Bank, Private sector etc.
- ✓ Creating local co-operative group
- ✓ List of exporters along with contact numbers, export potentials and ways of access to export market
- ✓ Training on secondary processing, GMP, HACCP etc.
- ✓ Managing loan for female to create female friendly market
- ✓ Training on ICT or improved technology
- ✓ Providing easy supply of necessary ingredients for commercial production

Group Work Summary: Value Chain Constraints and Recommended Solutions: At the first half of the third day of each training course, the concerned trainer discussed about the basic concept of value chain, how to identify value chain constraints throughout the value chain of fruits and vegetables, gender equality issues for value chain efficiency. Then the trainees took part in a group exercise on identification of major constraints in agro-processing value chains and their solutions. This group exercise helped the trainees in finding the reality of the prevailing value chain constraints, improving their knowledge level on value chain concept and ways of resolving the major value chain constraints for the fresh and processed commodities.

Pre- and Post-Evaluation: In pre-evaluation test most of the trainees scored lower-level marks before the training but at the end of the training, a significant improvement had been noticed in each batch. The average pre-evaluation mark of the 47 batches was found to be of 13%. Batch 4, 7, 9, 13, 16, 19, 29, 36 and 37 had scored the lower-level marks in pre-evaluation test in compare to others because they were not aware about the modern agricultural technology. However, their significant progress had been noticed after attaining the course. The trainees of other batches also attained excellent progress from the pre-assessment to the post-training assessment. The percentage of average mark of post evaluation test of these batches was found to be of 93.33%. The performance level of the batches 3, 5, 34, 39, 44 and 47 was highly appreciable.

Learning through Field Visit: The objectives of arranging the field visit were:

- ✓ To gain practical knowledge on post-harvest activities and Good Agriculture Practices,
- ✓ To be familiar with secondary processing technology,
- ✓ To know about the pack house operation for export purpose
- ✓ To observe the actual market condition

During the training program all the participants visited to different selected sectors keeping in view the training objectives. The field visit was held on the 4th day of the training program. The important field visits were held at some of the important places such as Central Pack House, Agro-Processing industry, at Commodity Collection & Marketing Center (CCMC), Agro Farm (export-oriented fruit orchard and vegetable field), Mushroom Center, Cold storage and various wholesale markets among others.

Participants' Feedback: During the 5-day long formal training courses, at each day after training session both the trainers and trainees conducted an open discussion while trainees were asked to share what they learned and how they felt. Trainees exchanged their views in each batch and provided their views on the training programme.

Monitoring the Training Programs: The training programmes were duly monitored by Dr. Sreekanta Sheel, The Team Leader, Prof. Dr. S M Fakhrul Islam, the Agro-Processing Expert, Mr. M A Mannan, the Value Chain Expert. The trainers of the concerned training batches also observed the course implementation activities. The overall monitoring of the training programs was duly performed by the training executing agency (**Shushilan**). It is also regularly monitored by the officials of PIU.

Implementation of Post-Training Refreshers' Workshop: During implement of trainings sessions, many issues/questions arised that require to discuss elaborately but the session time limit doesn't allow to go deeper on the issues. These issues were highly helpful for real life agribusiness implementation for the entrepreneurs. To discuss some important issues as well as to gather necessary future actions that may be undertaken by the trainees, 4 refresher workshops were organized for the trainees at Narshindi, Rajshahi, Rangpur and Jessore.

Lessons learned: A participatory systematic facilitation approach was adopted to facilitate a 5-day long training program which Shushilan to conduct at the training events for 47 batches by ensuring successful arrangement and efficient planning and management. From the implementation of the training programme throughout the country some important lessons have been learned:

- i) The willingness observed among the women participants on entrepreneurship devement proves that if the necessary infrastructural supports along with hands on training is provided for them, they could really be able to be the entrepreneurs,
- ii) However, gender equality particularly equitable access to all necessary facilities is required, and hence gender sensitive value chain as well as market system approach should be the significant initiative,
- iii) As the business incubation system has been in the meantime has been a proven approach in different developed and developing countries, therefore it is beneficial to

- adopt such approach for the development of the women entrepreneurship in the country,
- iv) A large number of customized actions, have been proposed by the trainees, however, before implementing the activities it is important to match the activities with the capabilities of the concerned women group along with the pre-feasibility study at the concerned contexts of the women groups,
 - v) The business incubation system would be decentralized at least at the divisional city level so that the women entrepreneurs could have well access to the facilities.

Recommendation: From each batch a number of participants have been selected for future training program. The selected participants are expected to be really capable of performing the entrepreneurship that was proposed by them. The following recommendation are made from the implementation of the training programme:

- i) Support to agro-entrepreneurs may improve capacities to access capital market and value chain,
- ii) The knowledge gathered from the training will help to create a large market of diverse fresh and processed fruits and vegetables along spices and mushroom products throughout the country,
- iii) Emphasis on women entrepreneurships is highly expected particularly providing necessary infrastructural facilities along with entrepreneurship nursing activities like business incubation,
- iv) Machinery/equipment support for secondary processing and packaging is to be given more emphasis particularly for export purpose,
- v) Collaboration between public and development institutions is required in developing women's agro-entrepreneurships and its sustainability,
- vi) The future interventions (in the upcoming pilot activities under BRCP-1) to be undertaken using the principles of business incubations or business service provision for the selected participants,
- vii) Logistics and financial support from the concerned authorities including providing loan with low interest rate for the agro-entrepreneurs,
- viii) Continuation and expansion of agro-entrepreneurs training for the new batches,
- ix) Offering bundled and multi-sided services like digital agro-marketing is significantly required,
- x) Some initiatives may be taken to produce Chinese and other exotic vegetables in some districts of the country to access the market of renowned restaurant of the country and to stop the import of this vegetables,
- xi) Syndicate free market may create opportunities for the agri-entrepreneurs to move forward and
- xii) Residential training on the aspect is preferable as suggested by most of the trainees.

Conclusion: This training is expected to help the women to overcome various barriers and create new entrepreneurship among them. In the future training programs for the selected trainees, use of business incubation principle in implementing the customized entrepreneurship activities would be a good option for creating the women entrepreneurship in the agro-processing sub-sector. The necessary infrastructure and the incubation process with the decentralized way at least at the divisional city level could be really helpful in developing the women's entrepreneurship particularly for the screened participants from the training batches.

1. INTRODUCTION

1.1 Background

Agro-processing has been identified as one of the thrust sectors by the government and several policies such as Industrial Policy 2016, Seventh Five-Year Plan and Agriculture Policy 2013 target the agro-processing sector. An analysis of the agro-processing sector and the relevant crops revealed a number of opportunities (Innovision Consulting Private Limited and Katalyst, 2016) for developing the sector. All major business conglomerates in Bangladesh have invested in agro-processing and are expanding their operations and their investment is well spread across inter-related markets (agro-machineries and equipment, inputs, post-harvest infrastructure). There is significant engagement of donor-funded projects focusing on institutional capacity development, standard and certification, skill development, developing and strengthening local service provider networks, leveraging private sector investments to commercialize and scale agricultural technologies and research. High market demand for the table crop disincentives the farmers to produce process varieties and often the production does not meet the specific requirements by the processors (the usage of pesticides and insecticides does not comply with Good Agriculture Practice which is essential for export market penetration). Inappropriate packaging and lack of cold storage facilities result in high post-harvest losses (postharvest losses in fruits and vegetables are around 23-45%). Food safety in Bangladesh is a multisectoral responsibility however the administrative enforcement mechanism of Bangladesh is not organized. There are inadequate training programs and facilities as the existing skills development programmes focus on training SMEs on small scale cottage-based processing but not on quality control, food safety issue, supply chain management, productivity management for the large-scale private sector agro-processors.

To realize the opportunities and address the challenges prevailing in the agro-processing sector a number of interventions need to be undertaken. Bangladesh Regional Connectivity Project-1 (BRCP-1) financed by IDA credit is being jointly implemented by the Bangladesh Land Port Authority (BLPA), National Board of Revenue (NBR) and Ministry of Commerce. The project has 3 components: a) Develop pilot programs to support female traders and entrepreneurs, b) Capacity development support for the national trade and transport facilitation committee. c) Improvement of Bangladesh trade portal and to set up a national enquiry point for trade. The Ministry of Commerce is implementing the second component of the project as a separate technical assistance project. The overall objective of this technical assistance project is to strengthen trade related institutional capacity in order to ensure active and sustainable cooperation among trade related stakeholders and economic empowerment of women traders. This technical assistance project applied a part of the IDA credit for procuring consulting/training management services to design and implement a training program assignment entitled “Designing and Implementing Training Program for Increasing Women’s Participation in the Agro-processing Sector in Bangladesh” for increasing women's participation and facilitating their export potentials in the agro-processing sector in Bangladesh to address the above challenges particularly the capacity building gaps of the sector. Considering the previous experience and strength, **Shushilan** expressed its interest to implement the assignment and finally had been awarded the assignment and signed contract on 22-12-2019. The assignment targets to implement in total 42 batches of training including 2 pilot training courses, however at the later stage new 5 batches were added resulting a total of 47 batches.

1.2 Objectives of the Assignment

The objectives of this assignment are to develop a training curriculum and implement training on technical know-how to enhance women's role in the agro-processing sub-sector and its export.

1.3 Scope of the Assignment and Project Overview

1.3.1 *The scopes of the assignment with the specific tasks are as follows:*

- **Refinement of training needs primarily identified by the project**

The specific tasks in this scope will include but not limited to following items:

 - a) Review of training programmes in similar fields carried out through other development partners
 - b) Carry out refinement of training needs based on the training focus identified above
 - c) Identify the selection criteria and target groups for trainings.

- **Develop and design a training program or curriculum**
 - a) Development and designing of a detailed training curriculum including the agendas of technical skills, business skills, soft skills and practical orientation of technologies among others in the training modules. These modules should also bring to the participants international and local examples/lessons.
 - b) Identification and signup for women and men to be trained (approximately 1000 persons).
 - c) Identification of trainers and training locations and times those are convenient for women.
 - d) Development of a training schedule and metrics to measure progress.
 - e) Develop a mechanism to receive trainees' feedback and complaints anonymously.
 - f) Develop an independent monitoring and evaluation mechanism for training;
 - g) Pilot of training (at least two batches) and adjustment to the curriculum before full scale training
 - h) Develop a monitoring and evaluation framework to assess the progress or outcome

- **Implementation of training curriculum**
 - a) Adjust the training modules after piloting based on observations received during piloting.
 - b) Trainings should be delivered in an inclusive and participatory way including real life practical sessions, open debate, discussions as necessary for complete understanding about the subject/technology etc.
 - c) Trainings should conclude by receiving formal feedback from participants.
 - d) After the training, the trainers should work with each participant to identify five customized actions that they would like to grow their involvement in the agro-processing sector.
 - e) A class room survey will be conducted to assess other needs of participants including, but not limited to, logistics/transportation, infrastructure needs (like cold storage), marketing support, financing, additional trainings, and so on.
 - f) After trainings, a refresher workshop for participants will be organized to address any questions that might arise during implementation of the training in real life.

1.3.2 Project Overview at a Glance

| | | |
|---|--|-------------------------------|
| Title: | Designing and Implementing Training Program for Increasing Women's Participation in the Agro-processing Sector in Bangladesh | |
| Contract No | BRCP-1/MOC/SD-18 | |
| Client | Bangladesh Regional Connectivity Project-1 Ministry of Commerce Attention: Project Director, Bangladesh Regional Connectivity Project-1 WTO Cell, Ministry of Commerce, Level-12 (West Side), Probashi Kollayn Bhaban, 71-72, Eskaton Garden Road, Dhaka-1000, Bangladesh. | |
| Consultant: | Shushilan Attention: Chief Executive House No.614 Road No.12 Baitul Aman Housing Society Adabor, Dhaka-1207 Facsimile: +88(02) 55010030, Mobile: 001720505710 E-mail: dhakaoffice@shushilan.org shushilan@shushilan.org | |
| Contract Signing date | Original Contract | 1st Revised |
| | December 22, 2019 | March 22, 2021 |
| Expiration of Contract | March 21, 2021 | June 21, 2021 |
| The contract Price | BDT 30,345,395.00 (Taka Thirty Million Three Hundred Forty-Five Thousand and Three Hundred Ninety-Five) only including VAT 15% and TAX 12% | |
| Project Support Office Location (TOE Services) | House 12 # 614, Road # 12, Baitul Aman Housing Society, Adabor, Dhaka-1207 | |
| Key Experts | Team leader-01, Lead Training Expert-01, Agro-processing Expert-01 and Value Chain Expert-01, Total-04 | |
| Non-Key Staffs | Master Trainer-02, Trainer-02, Account Officer-1 and Program Officer-1, Total-06 | |
| Total Direct Beneficiaries | 1175 person (75% women and 25% male) | |
| Type of Beneficiaries | Agro-based Entrepreneurs, Commercial Producer, Marketers, Agro-Business, Distributers, Retailer, Processer and Exporter | |
| Geographic Areas | 8 Divisions, 21 Districts and 36 Upazilas, 47 batches | |

1.4 Intended Beneficiaries and Location

The targeted trainee beneficiaries under the assignment comprise minimum 75% female entrepreneurs or representative of relevant bodies. However, a quota of no more than 25% male entrepreneurs or representative was set for training to encourage discussion and capacity building and yet to allow these women to learn from the male participants as well. Basically, the entrepreneurs/ representatives who are directly involved in various stages of the horticultural processing value chain were incorporated in the training programs. This selection criteria for the potential target beneficiaries or groups and locations were finalized after consultation with the project authority.

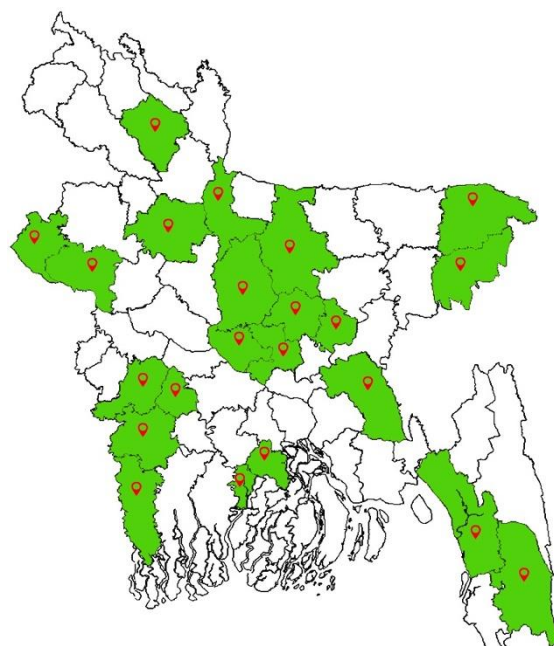

Figure 1. Location of beneficiaries

Intended Beneficiaries and Location

| Sl. No. | Division | District | Upazilla | Total Training Batch |
|-----------------|------------|-----------|-----------|----------------------|
| 01. | Dhaka | 05 | 11 | 19 |
| 02. | Rajshahi | 03 | 06 | 06 |

1.5 Covid-19 Health Issues Addressing During Training Program

The COVID-19 pandemic in Bangladesh is part of the worldwide pandemic of coronavirus disease 2019 (COVID-19). It was very much challenging to conduct a training program during this corona virus pandemic. Although everything is unstable for COVID-19, such training was very important for the country's economy and food security. For this reason, **Shushilan** has continued its training activities in compliance with the hygiene rules. All the Govt. rules and regulations of COVID-19 and the guideline of MoC (Ministry of Commerce) were strictly followed during the entire training sessions. After the opening of each training session, the trainers conducted a segment on how to address the health issue during this COVID-19 pandemic. "No Mask No Entry" was the first rule of each training session. To handle this COVID situation the following measures were followed:

- ✓ Use of digital thermometers to check the body temperature of all participants
- ✓ Providing enough mask
- ✓ Providing hand sanitizers to comply with improved quality hygiene
- ✓ Keeping a safe distance from one participant to another

2. IMPLEMENTATION OF ACTIVITIES

2.1 Component 1: Refinement of Training Needs Primarily Identified by the Project

The objectives of the training needs assessment study were to assess training needs of the agribusiness entrepreneurs in order to prepare a training module under the assignment on the technical know-how to enhance women's role in the agro-processing sub-sector and its export. The assessment study was designed based on the collection of secondary data, desk analysis and primary data. Primary data were collected through FGDs, KIIs and survey of sample vegetables and fruits entrepreneurs. The selected agro-commodities were winter and summer vegetables and summer fruits that included mango, banana, guava, and lemon. The selected study areas were Tangail, Narsingdi, Manikgonj, Jessore, and Rajshahi districts. Data were collected from five categories of entrepreneurs: 1) Farmers, (2) Local traders, (3) Wholesalers, (4) Processors and (5) Exporters. A representative sample size of 260 respondents was used for data collection through interviews.

2.1.1 Findings

Socio-economic demographic profile: Around 36.6% respondents belong to the age group of under thirty and majority of them were of middle age group (40.7%). Majority of the entrepreneur's family size ranges 4 to 5 persons per households. Around 41% of the respondents were graduate, 0.9% were HSC passed, 9.9% SSC passed and 26.9% completed primary education. Agriculture is the main occupation of the 38.7% respondents, while 50.5% have vegetable business and 9.7% have fruit business. Majority of the respondent entrepreneurs have professional experiences of more than 10 years, while 42.3% have 5-10 years of experience.

Post-harvest activities: The survey revealed that majority of the respondents perform sorting (96%) and only 49.3%, 54.7%, 45.3% and 21.3% performed cleaning, packaging, financing and processing, respectively. However, they hardly perform the grading activities.

Source of income from vegetable and fruits agribusiness: The survey revealed that 49.6% respondents' total income of over 75% came from vegetables and fruits business, while 30.5% respondents' 51-75% of total income came from vegetables and fruits business.

Challenges facing the vegetables and fruits entrepreneurs: The severe challenges mentioned by more than 70% respondents are: (1) pests and diseases, (2) lack of knowledge on post-harvest handling activities, (3) food quality and safety problem, (4) lack of market information, (5) low prices of outputs and (6) poor or insufficient training. Similar problems were also identified from Focused Group Discussions (FGDs) and Key Informant Interviews (KIIs) conducted in the study area. It revealed from findings of another study that the entrepreneurs are facing several constraints, including small and marginal farmers, non-availability of quality seeds, low productivity of vegetables and fruits, inefficiency in pest management, credit availability constraint, lack of timely price and market information, huge post-harvest losses, lack of cold storage, poor marketing network and high transportation cost. According to DAE, farmers are not often getting fair price of their produces. Usually farmers' price share is 30-40% of consumer price. There are sharp seasonal price variations of fruits and vegetables due to absence of proper marketing and storage infrastructure. The

study also reveals that, horticultural production and processing has huge potential as it has a vast domestic market, availability of cheap labour, fertile land, varied geographical conditions and export potential.

Review of government policy and strategy for capacity development: The 7th Five Year Plan (FYP) targeted improving crop diversification, value addition and agro-processing sector of Bangladesh. This is also aligned with the Second Country Invest Plan of Ministry of Food. The priority areas of government investment in the SCIP are capacity building of value chain actors including marginal, small, and poor women farmers and market intermediaries, and market promotion, establishing agro-processing zones, reducing postharvest loss through Improving transportation, cool chain and storage facilities. The government is playing role for implementation of food quality and safety regulations in markets providing adequate manpower and lab facilities. Department of Agricultural Marketing is also playing its role for dissemination of price information.

Training needs of the entrepreneurs:

- *Good agricultural practices (GAP)*- many entrepreneurs have little knowledge or average level of knowledge on GAP for vegetables and fruits production. It also revealed from the results of FGDs and KIIs that the farmers demanded training on GAP and mentioned that it is very important for them as they are facing problems of pests and diseases and food quality and safety that are highly significant for the consumers.
- *Post-harvest handling of vegetables and fruits:* It appeared from the analysis presented in the Tables that a large portion of respondents has little or moderate level of knowledge on post-harvest activities such as cleaning, sorting, grading, transportation, packing and storage of vegetables and fruits. Majority of the respondents from both vegetables and fruits opined that training on post-harvest handling is very important for them. It is also supported from the results of FGDs, KIIs and secondary information and studies. This is also found consistent with other study findings and government strategies and priorities.
- *Food processing technology, food quality & safety, and postharvest loss:* A large portion of respondents has little or moderate level of knowledge on food processing technology, food quality and safety, SPS standards and minimizing postharvest loss for vegetables and fruits. Majority of the respondents of both vegetables and fruits opined that training on these topics is highly necessary for them. It is also supported from the results of FGDs, KIIs and secondary information and studies.
- *Entrepreneurship development:* It appeared from the analysis that a large portion of respondent has little or moderate level of knowledge on (1) development of business proposal, (2) costs and return analysis of vegetables, (3) arranging bank loan and services, (4) soft skills, (5) facilitating networking, access to information and linkage with the traders/processors, (6) needs of regulations on government procedure for start-up of Agro-processing business, (7) participation in women chamber of commerce and association of women entrepreneurship network in the agro-processing sector. Majority of the respondents from both vegetables and fruits opined that training on these topics are highly important for them. It is also supported from the results of FGDs, KIIs and secondary information.

2.1.2 Recommendations of the Need Assessment Study

The study revealed that the entrepreneurs engaged in vegetable and fruits business are facing a number of problems. On the basis of the findings of the study, the training needs of the entrepreneurs were identified. Under the assignment of BRCP-1, designing and implementing training program in the above issues are important to address for improving their knowledge and skill so that they can improve their operational efficiency, competitiveness, profitability, sustainability and could foster growth in agriculture and food processing sector. The following training topics were recommended for inclusion in the training module of the assignment under BRCP-1:

- 1) Good Agricultural Practices for selected fruits and vegetables
- 2) Pre-harvest factors affecting postharvest management of fruits and vegetables
 - Primary processing (post-harvest handling of fresh commodities)
 - Harvesting, postharvest handling, packaging, transportation and storage of fruits and vegetables
 - Cold chain management for fruits and vegetables
- 3) Secondary processing technologies for fruits and vegetables focusing intermediate and shelf-stable processed products having market potentiality
- 4) Quality and food safety assurance (including Sanitary and Phyto-sanitary Standards) for exporting/importing fresh fruit and vegetables
- 5) Understanding of value chain concept, identification of major constraints and their solution
- 6) Stakeholder relationship development: a) Facilitating formation of network/ platform of value chain actors and b) Application of Information and communications technology (ICT) towards better market access for fresh and processed fruits and vegetables
- 7) Various ways to domestic market access and marketing for fruits and vegetables, contract farming and group-based marketing
- 8) Export marketing and export market potentialities for selected fresh and processed fruits and vegetables
- 9) Development of business plans and facilitating access to finance, regulations on government procedure for starting-up agro-processing firms, product development and productivity improvement
- 10) Soft skills/ business skills: communication, negotiation, time-management, leadership, sales and customer relationship
- 11) Cost-Benefit Analysis for an agri-business enterprise related to fresh fruits and vegetables

2.2 Component 2: Development/ Designing of the Training Curriculum

A training module along with the manual was designed on the basis of training aspects outlined under ToR, inception meeting resolution with the project authority and need assessment survey findings. A 5-day long training programme for increasing women's

participation in the agro-processing sector in Bangladesh was developed that comprises the following topics along with their objectives.

2.2.1 ToT of Trainers

Training of Trainers (ToT) is a program for the development of training delivery skills of those who wish to become trainers in the sector of their preference. To run the whole training program efficiently and effectively, the key staff of the project had given a 5 days ToT to the master trainers and trainers. The ToT was specially focused on the following points-

- Roles and responsibilities of Trainers
- Learning Styles and Preferences
- Planning skills
- Methods of Delivery
- Practical Teaching skills - using basic and advanced techniques
- Training styles and communication
- Feedback and Evaluation
- Reflection and evaluation of delivery
- Emotional Intelligence and its impact in the classroom

The trainers also learnt on job from two piloting programs run by the team leader and consultants.

2.2.2 Piloting Training Programs

Before implementing the entire training program two piloting training programs were held at Dhaka City Corporation and Jashore Sadar. The piloting program was held to find out the views of the participants in developing the training curriculum and other activities. At first the training module was consisted of 7 chapters and 16 sub-chapters. The chapters were- Thematic Area-A: Training Course Introduction and Pre-harvest Management of Fruits and Vegetables (A-1, A-2, A-3), Thematic Area-B: Primary Processing (Post-harvest Handling of Fresh commodities, B-1, B-2), Thematic Area-C: Secondary Processing (Processing into Shelf-Stable Products, C-1), Thematic Area-D: Food Safety and Quality Assurance of Fresh and Processed Commodities (D-1, D-2), Thematic Area-E: Value Chain Development (E-1, E-2), Thematic Area-F: Market Development (F-1, F-2, F-3) and Thematic Area-G: Entrepreneurship Development (G-1, G-2, G-3). The topic F-2 (Orientation to International Trade Centre (ITC) market analysis methodology towards assessing export market potentialities of fresh and processed fruits and vegetables) had been excluded from the module. As well as the formate of selected customized entrepreneurs had been included in the training program after assessing the performance of piloting batches.

The key learnings of the piloting program were-

- ✓ Understanding level of the participants with training module and curriculum
- ✓ Relativeness of training module topic with participants real life work
- ✓ Effectivity of topic Delivery style of the trainer
- ✓ Understanding real life application of field visit
- ✓ Correlating the expectation of participants and training program

2.2.3 Training Course

The training course includes seven thematic areas under which there are fifteen topics. The topics of this training course are:

Thematic Area-A: Training Course Introduction and Pre-harvest Management of Fruits and Vegetables

Topic A-1: Introduction of course objectives and training plan

Topic A-2: Standard for Good Agricultural Practices (GAP): Fruits and Vegetables

Topic A-3: Pre-harvest and harvest factors affecting the post-harvest behaviour of fruits and vegetables

Thematic Area-B: Primary Processing (Post-harvest Handling of Fresh commodities)

Topic B-1: Harvesting, postharvest handling, packaging, transportation and storage of fruits and vegetables

Topic B-2: Cold chain management for fruits and vegetables

Thematic Area-C: Secondary Processing (Processing into Shelf-Stable Products)

Topic C-1: Secondary processing technologies for fruits and vegetables focusing intermediate and shelf-stable processed products

Thematic Area-D: Food Safety and Quality Assurance of Fresh and Processed Commodities

Topic D-1: Quality & Food Safety Assurance and Sanitary & Phyto-Sanitary Standards (SPS) for Fresh Fruit and Vegetables

Topic D-2: Quality and Food Safety Assurance for Processed Products Focusing GMP and HACCP

Thematic Area-E: Value Chain Development

Topic E-1. a) Understanding of value chain concept, identification of major constraints and their solution and b) Gender Equality as an Underlying Reason to Value Chain Efficiency

Topic E-2: Stakeholder Relationship Development: a) Facilitating formation of network/platform of value chain actors and b) Topic E-2. Application of Information and communications technology (ICT) towards better market access for fresh and processed fruits and vegetables

Thematic Area-F: Market Development

Topic F-1. Various ways to domestic market access and marketing for fruits and vegetables, contract farming and group-based marketing

Topic F-2. Procedure of export marketing and export growth of fresh and processed fruits and vegetables

Thematic Area-G: Entrepreneurship Development

Topic G-1: Introduction to Development of Business Plans (Appraisal), Procedure and Government Regulations for Starting-up Agro-processing firms, product development and productivity improvement

Topic G-2: Soft skills/ Business skills: communication, negotiation, time-management, leadership, sales and customer relationship

Topic G-3: Cost-Benefit Analysis for an Agri-business enterprise related to fresh fruits and vegetables

2.2.4 Objective of the Training Program

The basic objective of this training course is to enhance women's role in the agro-processing sub-sector and its export. More specifically, after this course, the participants will be aware on:

- i. Good Agricultural Practices (GAP) for selected fruits and vegetables
- ii. Pre-harvest factors affecting post-harvest management of fruits and vegetables
- iii. Harvesting, postharvest handling, packaging, transportation and storage of fruits and vegetables
- iv. Using secondary processing technologies for fruits and vegetables focusing intermediate and shelf-stable processed products having market potentiality
- v. Maintaining Quality and food safety assurance (including Sanitary and Phyto-sanitary standards, GMP, HACCP rules and regulation) for exporting/importing fresh fruit and vegetables
- vi. Value chain management, identification of major constraints and their solution
- vii. Developing Stakeholder Relationship (Facilitating formation of network/platform of value chain actors and Application of Information and communications technology)
- viii. Finding out various ways to domestic market access and marketing for fruits and vegetables, contract farming and group-based marketing
- ix. Taking steps of export marketing and export market potentialities for selected fresh and processed fruits and vegetables
- x. Developing business plans (appraisal) and facilitating access to finance, regulations on government procedure for starting-up agro-processing firms, product development and productivity improvement
- xi. Developing Soft skills/ Business skills (communication, negotiation, time-management, leadership, sales and customer relationship)
- xii. Conducting Cost-Benefit Analysis for an Agri-business enterprise related to fresh fruits and vegetables

Workshops on training modules and implementation plan were duly held on training module & manual and implementation plan and based on the comments/suggestions provided by the participants the training modules and manual was finalised. The training modules and manual was then translated into Bengali and 1200 copies were printed before starting the core training programme.

An anonymous post-training evaluation survey question was set in relation to course structure, content, duration, trainer, accessibility, certificates, training outcome and learning experience was duly prepared. Two batches of the training programme were piloted in Dhaka and Jessore. An independent monitoring and evaluation mechanism for the training programme was also developed after holding the second batch of the pilot training program.

Four Trainers with the relevant academic backgrounds and experiences have been recruited followed by conducted ToT for them. In addition, they have been provided necessary advices and guidelines so that they could be fruitfully able to conduct the training sessions.

2.3 Component 3: Implementation of the Training Programme

2.3.1 Participants Category

The ratio of female and male participants of total 47 batches comprising batch no. 01-47, is shown here graphically in Figure-2.1. Among the 1175 trainees there were 881 females and 294 males. Mainly female and male participants working along the value chain in the agro-processing subsectors participated in the training program.

Among the 1175 trainees, 244 of them were involved in grading, packaging and marketing, 241 participants were related to vegetable cultivation, processing and marketing, 181 participants were engaged in sorting, grading and packaging, 137 participants involved in processing and packaging of fruits and vegetables, 95 participants involved in vegetable cultivation and marketing, 81 participants worked with marketing and cultivation, 72 participants involved in vegetable cultivation, 71 participants worked with grading, sorting and packaging, 33 participants were engaged in processing and marketing, 20 participants involved in fruits cultivation, processing and marketing. Figure-2.2 represents the occupation ratios of the participants.

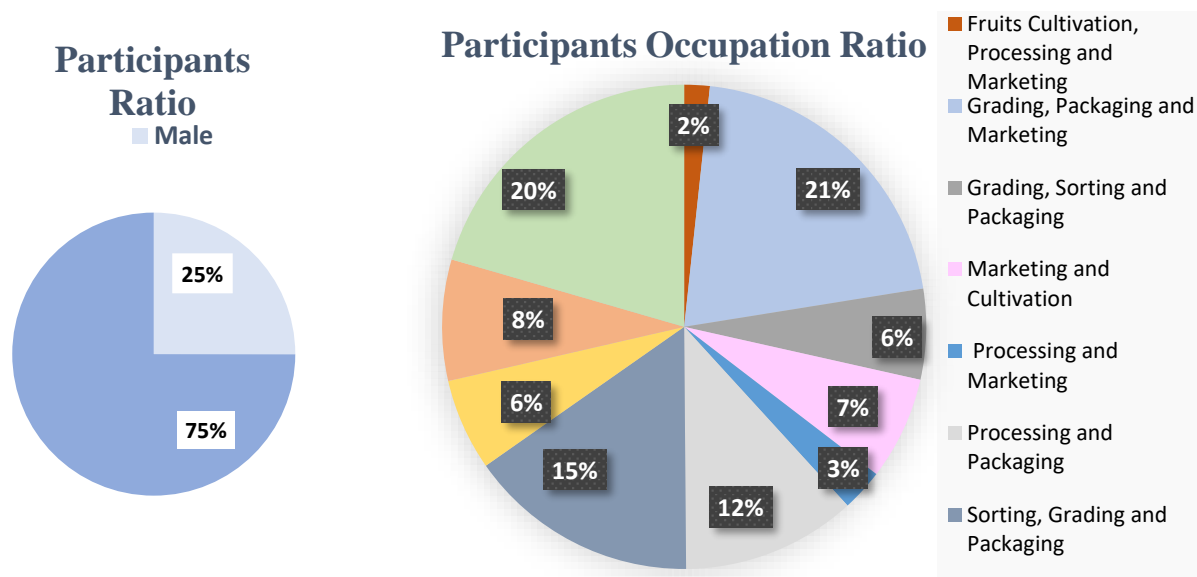

Figure 2.1. Participants' Gender Ratio

Figure 2.2. Participants' Occupation Ratio

2.3.2 Potential Entrepreneur Selection Methodology for Future Activities

Total 1175 participants were attended in these 47 training programs. Among them, about 450-470 participants are selected for future activities, from each batch only the first 5-7 participants had got the opportunity of attending the post training refreshers workshop.

The participants have been selected on the basis of the following criteria:

- ✓ Participants' performance levels (score in evaluation exam and training session)
- ✓ Already involved in agrobusiness and exporting agro-products
- ✓ Skill in pack house operation (sorting, grading, packaging etc.)
- ✓ Linked with different agrobusiness company
- ✓ Interested in exporting agro-products
- ✓ Experience in export market
- ✓ Working as contract farmer
- ✓ A minimum educational background (at least 5th grade)
- ✓ Aspires to thrive and become a part of export market (viz. an agro-processing market actor who has been working for at least a year in the sector; having some successful/unsuccessful experiences in the business; ready to invest as an agro-processor in this sector, etc.).
- ✓ Her/his financial management and books of accounts keeping are adequately organized and recorded.
- ✓ Registered as an entrepreneur: has her business license, trademark, logo and other relevant documents.
- ✓ Willing to invest in expanding her business and ready to invest as an agro-processor
- ✓ Has good understanding of GAP, sanitary & phytosanitary issues.
- ✓ Owns a minimum infrastructural capacity to comply with the export market requirement.

The selected potential participants' list is attached in Annex 2.

2.3.3 Area & Group Based Customized Entrepreneurships

The participants were divided into three to five groups according to their located area. Then they were set upon five customized entrepreneurships according to their need and interest. In some cases, one or two groups set up the the same entrepreneurship. Followings are the entrepreneurships activities found from the training batches:

- Secondary processing of fruits & vegetables (jam, jelly, pickle, sauce)
- Cold storage installation for fresh fruits & vegetables (Narsingdi, Tangail, Jashore, Gazipur, Savar)
- Mushroom cultivation, processing and marketing (Jhenaidah, Jashore)
- Spice processing and marketing (Gazipur, Bogura, Jashore)
- Season basis honey production and marketing (Tangail, Jashore)
- Secondary processing of potato, mango and tomato (chips, powder, pickle, sauce) and marketing (Rangpur, Bogura, Rajshahi, Jashore, Magura & Chapainawabganj)

- Production and marketing of vermicompost (Bagura, Magura, Jashore)
- Pack house for fresh fruits & vegetables (Narsingdi, Savar, Rajshahi)
- Ready to cook (vegetables) or ready to eat (fruits) services (Narsingdi, Dhaka, Savar)
- Primary processing, marketing and export of fruits and vegetables
- Cultivation and marketing of high value fruits and vegetables (Savar, Jashore)

The participants profile up to union level with selected customized entrepreneurs is attached in Annex 1.

2.3.4 Necessary Assurances for Implementing the Customized Actions

To set up or implement the customized entrepreneurs the entrepreneurs need some assurances from the government and authorized bodies. Requirements of each group to implement the concerned entrepreneurs are given below:

Customized Entrepreneurship 1: Secondary Processing of Fruits & Vegetables (Jam, Jelly, Pickle, Sauce)

This group desires the following facilities-

- Supply of fresh fruits and vegetables
- Making linkage with farmers
- list of exporters along with contact numbers, export potentials and ways of access to export market
- Special air service for highly demanded perishable products
- Female friendly corner in the market
- Providing subsidy
- Managing loan without or with low interest
- Managing loan for female entrepreneur
- Creating local co-operative group
- Training on good packaging system
- Training on raising awareness on ICT or improved technology
- Training on GMP and HACCP system to get certificate from the authorized body

Customized Entrepreneurship 2: Cold Storage Installation for Fresh Fruits & Vegetables

According to the opinion of the participants of this group, they expect the followings-

- Linkage with land lease group
- Building equipment and instrument
- Installation of electricity line
- Managing loan without or with low interest
- Making linkage between farmers and processors/exporters with the help of NGO, Bank, Private sector etc.
- Creating local co-operative group

- list of exporters along with contact numbers, export potentials and ways of access to export market
- Establishing a billboard in the center point of market which will show the updated information of the products (price, market demand)
- Training on good packaging system

Customized Entrepreneurship 3: Mushroom Cultivation, Processing and Marketing

This group demands for the following facilities:

- Supply of proper packaging materials for mushroom
- Set up of mechanical instruments for smooth processing procedure
- Making linkage between farmer and processors
- Making linkage with super shop and food industry
- Creating awareness about the health beneficials of eating mushroom
- Managing loan for female to create female friendly market
- Training on good packaging system
- Training on mushroom processing and preservation technique
- Training on GMP and HACCP system to get certificate from the authorized body
- Marketing through proper channel like as paper, Facebook, tv channel, radio, advertisement etc.

Customized Entrepreneurship 4: Spice Processing and Marketing

According to the opinion of the participants of this group, they expect the followings:

- Supply of various spice
- Making linkage with the farmers and traders
- Supply of proper packaging materials
- Assistance to install electricity line
- Training on market demand and evaluation
- Training on GMP and HACCP system to get certificate from the authorized body
- Training on modern packaging materials and technology
- Creating female friendly market

Customized Entrepreneurship 5: Season basis Honey production and marketing

This group demands the following facilities:

- Linkage with farmer for fruits and vegetable supply
- Supply of proper packaging materials (glass jar)
- Managing loan for female to create female friendly market

- Training on ICT or improved technology
- Training on GMP and HACCP system to get certificate from the authorized body
- Separate transportation facility for home delivery
- Training on latest packaging materials and technology
- Supply of necessary equipment for honey production
- Female friendly corner in the market
- Training on online marketing (ICT),

Customized Entrepreneurship 6: Pack House for Fresh Fruits & Vegetables

According to the opinion of the participants of this group, they expected the followings-

- Building equipment and instrument
- Installation of electricity line
- Supply of crates
- Supply of proper packaging materials
- Installation of electricity line
- Making linkage with the farmers and traders
- Creating female friendly market
- Managing loan without or with low interest
- Making linkage between farmers and processors/exporters with the help of NGO, Bank, Private sector etc.
- Creating local co-operative group
- Training on good packaging system
- Training on Good Handling Practices

Customized Entrepreneurship 7: Production and Marketing of Vermicompost

According to the opinion of the participants of this group, they expect the followings:

- Supply of essential equipment for commercial production
- Providing easy supply of necessary ingredients for commercial production
- Making linkage with fertilizer supplying dealer
- Managing loan without or with low interest
- Managing loan for female entrepreneur
- Creating local co-operative group
- Training on raising awareness on ICT or improved technology
- Providing training on vermicompost harvesting system
- Creating awareness among the local people to use vermicompost

Customized Entrepreneurship 8: Ready to cook (vegetables) or ready to eat (fruits) services

This group demands for the following requirements:

- Linkage with producer and customer
- Female friendly corner in the market
- Creating market for fresh cut products
- Training on online marketing (ICT)
- Training on good packaging system
- Pack house for sorting, grading and storing
- Female friendly corner in the market
- Training on GAP and GMP system to get certificate from the authorized body
- Separate transportation facility for home delivery

Customized Entrepreneurship 9: Primary processing, marketing and export of fruits and vegetables

According to the opinion of the participants of this group, they expect the followings:

- Building equipment and instrument
- Supply of fruits and vegetables
- Supply of proper packaging materials
- Supply of crates
- Installation of electricity line
- Training on good packaging system
- Making linkage with the farmers and traders
- Training on Good Handling Practices
- Creating female friendly market
- Supply of fresh fruits and vegetables
- Making linkage with farmers
- List of exporters along with contact numbers, export potentials and ways of access to export market
- Special air service for highly demanded perishable products
- Monitoring panel for removing syndicate
- Managing loan without or with low interest
- Creating local co-operative group
- Training on raising awareness on ICT or improved technology
- Training on good packaging system, GMP and HACCP system to get certificate from the authorized body

Customized Entrepreneurship 10: Production and Marketing of High Value Fruits and Vegetables

According to the opinion of the participants of this group, they expect the followings:

- Supply of seed and seedlings
- Making linkage with farmers
- Special air service for highly demanded perishable products
- Female friendly corner in the market
- Monitoring panel for removing syndicate
- Managing loan without or with low interest
- Managing loan for female entrepreneur
- Creating local co-operative group
- Training on raising awareness on ICT or improved technology
- Training on high value crop production
- Storage facility close to the market where the produces could be stored
- Training on Good Handling Practices and good packaging system

The detail list of potential exportable fresh fruits and vegetables along with their potential locations have been provided in Annex-5.

2.3.5 Sugestions for Market Linkage

it was observed that in every training batch there were some participants who were facing various problems due to lack of market linkage. The active participants losing their hope as they couldn't find out the appropriate market for their products. Specially the female who were interested in doing business with secondary processed food and selling their product locally, they become disappointed. They demanded for proper marketing channel to run and boost up their business. They are searching for the following marketing channel-

- ✓ list of exporters with contact details
- ✓ Packaging company
- ✓ renowned food industry like Pran, BD Food, Acme
- ✓ Super shop
- ✓ Restaurant etc.

2.3.6 Selected Participants for Advanced Training (May be Home/Abroad)

An advanced training may be provided to the female members who were highly emphasized on secondary processing and had shown considerable skills in this field and looking for market linkage for proper marketing of their products.

The advanced training will be given on the secondary processing of -

- i. Mango
- ii. Pineapple
- iii. Jackfruit
- iv. Potato

The following are some of the features we have considered in the selection of the candidates-

- ✓ Directly involved in the processing of agricultural products
- ✓ Previous experience of working in secondary processing
- ✓ Interest in group production and marketing
- ✓ Willingness to work in this sector
- ✓ Involvement in marketing of secondary processed products
- ✓ Educational qualifications
- ✓ Having necessary documents (trade license, TIN certificate etc.)

The advanced training may be provided in Bangladesh or abroad where the agro-processing sector/agro-processing technology is highly developed/very much advanced.

List of selected participants for advanced training have been provided in annex 3.

2.3.7 Group Work Summary: Value Chain Constraints and Recommended Solutions

At the first half of the third day of each training course, the concerned trainer discussed about the basic concept of value chain, how to identify value chain constraints throughout the value chain of fruits and vegetables, gender equality issues for value chain efficiency. Then the trainees took part in a group exercise on identification of major constraints in agro-processing value chains and their solutions. This group exercise helped the trainees in finding the reality of the prevailing value chain constraints, improving their knowledge level on value chain concept and ways of resolving the major value chain constraints for the fresh and processed commodities.

The division wise value chain constraints and recommended solutions have been provided in the tabulated form:

| Division/Region | Crop/Product | Constraints | Recommended Solutions |
|--|---|--|--|
| Dhaka (Narsingdi, Savar, Gazipur, Manikganj) | Vegetables, Chinese vegetables, banana, jackfruit, processed food like pickle, jam etc. | <ul style="list-style-type: none"> i. Lack of market/price information and market linkage to the producers and intermediaries ii. Lack of export-oriented knowledge iii. Inadequate agro-processing industries | <ul style="list-style-type: none"> ✓ Public private partnership for installing agro-processing plant ✓ Providing market information ✓ Promoting supply of safe and nutritious food ✓ Capacity development of farmers entrepreneurs and market intermediaries through training in food quality and safety regulations and Good Agricultural Practices (GAP) |
| Tangail | Lemon, vegetable, pineapple | <ul style="list-style-type: none"> i. Limited market access of the smallholder farmers ii. Lack of agro-processing knowledge iii. lack of knowledge on post-harvest management | <ul style="list-style-type: none"> ✓ Public private partnership for installing cold-storage ✓ Facilitating the development of supermarkets and other large-scale retail centres that directly engage in agreements with local producers ✓ Training on secondary processing of fruits & vegetables and online marketing |

2.3.8 Pre- and Post-Evaluation

In pre-evaluation test most of the trainees scored lower-level marks before the training but at the end of the training, a significant improvement had been noticed in each batch. The average pre-evaluation mark of the 47 batches was found to be of 13%. Batch 4, 7, 9, 13, 16, 19, 29, 36 and 37 had scored the lower-level marks in pre-evaluation test in compare to others because they were not aware about the modern agricultural technology. However, their significant progress had been noticed after attaining the course. The trainees of other batches also attained excellent progress from the pre-assessment to the post-training assessment. The percentage of average mark of post evaluation test of these batches was found to be of 93.33%. The performance level of the batches 3, 5, 34, 39, 44 and 47 was highly appreciable. The results of the pre- and post-evaluation tests of the batches are shown in Figure-3.

Questionnaire of pre and post evaluation test are attached in annex 7.

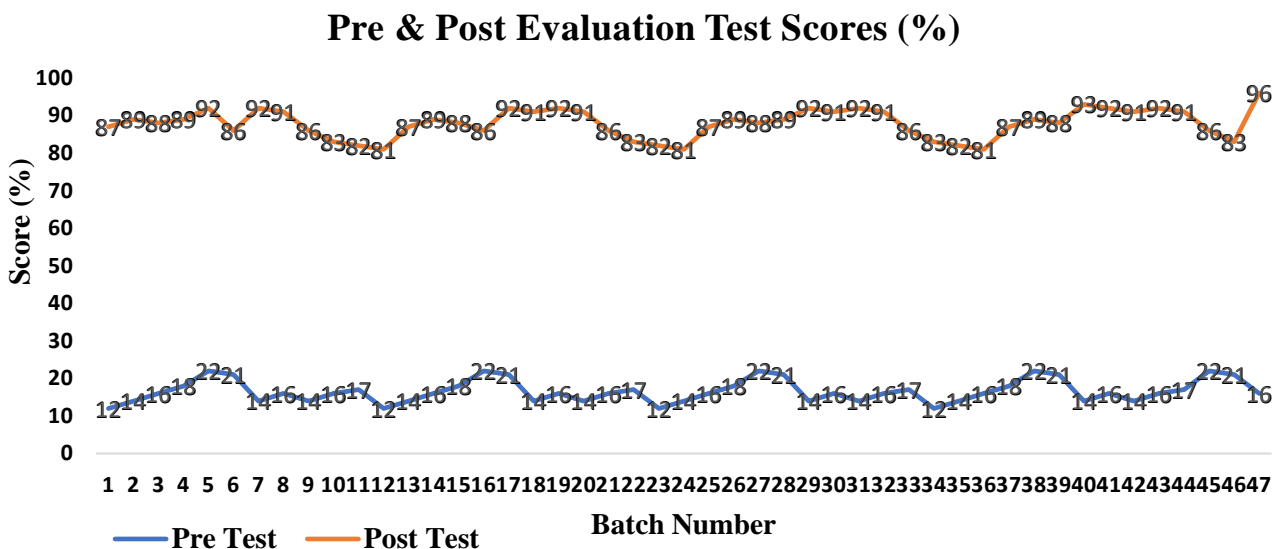

Figure 3. Ratio of pre & post Evaluation Test (Batch 01-47)

2.3.9 Learning through Field Visit

Field visit is recognized as an important part of learning. The field visit helps how to translate theoretical knowledge into practical use. A day-long field visit was organized in each batch towards getting such practical knowledge. More specifically, the objectives of arranging the field visit were:

- To gain practical knowledge on post-harvest activities and Good Agriculture Practices
- To be familiar with secondary processing technology
- To know about the pack house operation for purpose of export
- To observe the actual market condition

Keeping in view the training objectives, all the participants visited to different selected sectors during the training program. The field visit was held on the 4th day of the training program. Field visits at some of the important places such as Central Pack House, Agro-Processing industry, Commodity Collection & Marketing Center (CCMC), Agro Farm (export-

oriented fruit orchard and vegetable field), Mushroom Center, Cold storage and various wholesale markets etc. are described here:

◆ **Central Pack House**

The participants of batch 1 Piloting (Dhaka City Corporation, Dhaka) and batch 3 (Dhaka City Corporation, Dhaka) were taken to Central Pack House of Plant Quarantine Centre, Shyampur, Dhaka under the Department of Agriculture Extension. This packaging centre started its activities through exporting mangoes to European Union in 2017. The participants visited different sections of the processing zone like the landing area, sorting and grading room, pre-cooling room, cooling room, laboratory, etc. of pack house. In these field visits participants learned about the importance of sanitary and phytosanitary maintenance of fresh fruits and vegetables for exporting purpose. They also learned about purposes of the quarantine system including control of export of plants or plant products, pests, germs and packaging products in accordance with the plant health care requirements of the importing country in compliance with international agreements and controlling the import of those products and germs and packaging products from other countries to prevent the infiltration of quarantine pests in Bangladesh.

◆ **Agro Farm**

The participants of batch 10, 11, 12, 13, 14, 29, 32, 35, 38, 47 visited pack house (with nursery) and innovative Agro Farms of young entrepreneurs to gain practical knowledge on pack house operation, high value crop cultivation, GAP (Good Agricultural practice), IPM (Integrated pest management) system, post-harvest handling (sorting, grading, and packaging), transporting and marketing system of fruits and vegetables and modern agricultural technology. This field visit gave them new ideas. Many of the participants consented to adopt these technologies.

◆ **Commodity Collection and Marketing Centre (CCMC)**

The participants of batch 2 (piloting), batch 4, 5, 6, 7, 8, 9, 15, 17, 18, 19, 21, 22, 32, 35, 39 were taken to the local wholesale market and Commodity Collection & Marketing Centre (CCMC), Hortex foundation as a part of their field visit. Here the participants observed the packaging and transport system of various vegetables. In the wholesale market they willingly discussed with the farmers, local traders/Fariyas, wholesalers and brokers about the postharvest handling, wholesale and retail price and source of these vegetables. After completing the market visit, an open discussion was held at the Commodity Collection and Marketing Centre, (CCMC) established under NATP-2 project of Hortex Foundation (Strategic partner of DAE) of respective area. From here the participants have been aware of the packaging, transporting and marketing system of agro-product for export purpose.

◆ **Agro-processing Industry/ House**

The participants of the batches of 25, 27, 33, 33, 41 and 44 were taken to visit diverse processing factories for gaining practical knowledge about the processing of agricultural products in the respective areas. The participants visited the exhibition corner, laboratories and the section where they made a variety of processed foods from different fruits. From this field trip participants gathered knowledge about quality control, marketing system and innovative ideas about agro-processing.

◆ **Cold Storage**

The participants of the batches of 28 and 45 visited cold storage of respective areas. They visited different chambers of cold storage and sorting and grading floors, pre cooling and cooling chambers. The participants learned practically on how to ensure the quality of

products. Through this field visit, participants learned the importance of cold chain in processing and exporting of vegetables and fruits.

◆ Mushroom Centre

The field visit of the batches of 31, 33 and 34 was held at the Mushroom growing farms of the respective areas. Here the participants learned about the cultivation method and marketing system of different variety of raw and processed mushroom products. After the open discussion, the participants visited the mushroom production shelves, laboratories and the sections where they made a variety of processed foods from mushrooms. The participants were highly encouraged after seeing this diverse initiative and expressed their determination to do something new like these.

2.3.10 Participants' Feedback

During the 5-day long formal training courses, at each day after training session both the trainers and trainees conducted an open discussion while trainees were asked to share what they learned and how they felt. Trainees exchanged their views in each batch and provided their views on the training programme. Some of their important views from each batch are highlighted here:

“From this training I got a comprehensive idea about the domestic market and international market which will help me to upgrade my business. Again, I have no idea about the export marketing of fruits and vegetables. Now I am thinking about export marketing of my products. I really like the training, but it would have been nice to have more practical session with class-based discussions in the training”. **Harunor Rashid, Batch No. 1**

“Secondary processing of fruits can get a richer market than any other thing. So, we need some special training on secondary processing of food. Linkage with the renowned food supplying organizations is a must to catch the bigger market. And the need of a female friendly market is crucial to expand agro-processing sector”. **Roksana Parvin, Batch No. 1**

“Before joining this training, I have no knowledge about packaging even I didn't know that I can export my products by following GAP and good packaging. I am requesting the concerned authority to help us in exporting our products.” **Shohag Rana, Batch No. 2**

“I am an entrepreneur; I am making jam, jelly and pickles of various fruits and providing home delivery. After joining this training program, I gather knowledge about packaging and levelling of any products and inspired to do packaging and levelling of my products.” **Ayesa Jesmin, Batch No. 03**

“We are producing good quality fruits and vegetables but there is no specific cold storage any kind of fruits or vegetables in country, so we are seeking help from the authorized body to install a cold storage in our locality that will help us to store the products for some days that will help to get a good market price and also enter the export market of the country.”

AKM Neyamot Ullah Babu, Batch No. 03

“We need to receive a comprehensive training course on export marketing providing detailed on the steps of export procedures, list of importers along with contact numbers, export potentials and ways of access to export market.” **Sobuj Miah, Batch No. 07**

“We need training for secondary processing of fruits specially which are highly perishable. Again, government incentives are essential to catch the bigger market. A female friendly market is a crucial for involving women in marketing sector. **Rashida Begum, Batch No. 08**

“Arranging all necessary documents for exporting fruits and vegetables from different place is cumbersome and time consuming. So, if government could take any initiative to manage all the documents required for export purpose from one place, I think the export marketing will be increased.”

Kobbad Hossain, Batch No. 10

“Government should take some steps for creating upazila or zila based market to create channel directly from farmer to consumer on a specific day of the week for minimizing the number of middlemen from the value chain”

Md. Aowlad Hossain, Batch No. 11

“I have been working in agricultural sector for last five years and supplying my products to the farmers market. After joining this training program, I am feeling to export my products. As an entrepreneur I have taken so many trainings and found so renowned mentors as our trainer but never found a trainer like here. Their teaching technique was so unique and attractive. Thanks for providing this type of training”

Razia Sultana, Batch No. 12

“The training was not really of five days but it was a big challenge to hold it in five days. We learned a lot of new things from this training program. Now the next step became much easier for us to get access in high value market. Thanks, MoC and Shuhilan.”

Salina Akther, Batch No. 13

“I have learnt a lot of things during the last five days, from this training I got the ways and knowledge that I was looking for. This training inspired me to expand my business and to think about new ideas. Thanks, MoC and Shushilan for arranging such type of training program.”

Mst. Sume Khatun, Batch No. 21

“We are producing good quality vegetables but we have no knowledge about export marketing. After joining this training program, we gather some idea about the marketing system. So, we are seeking help from the authorized body to help us in entering the terminal market and export market of the country”

Md. Walid Pramanik, Batch No. 23

“We really need this type of training program to enhance the quality of processed fruits and vegetables. Because we know so many things but not the right way. As I am the owner of a large jujube orchard every year, I have to loss a large portion of the jujube, from now I am thinking to create a market of processed jujube.”

Babita Begum, Batch No. 24

“Most of the tomatoes of the country is produced in our locality compared to others. So, if we get any facility for secondary processing of this vegetable, this will play a great role in the economy of the country”

Mohammed Mazharul Islam, Batch No. 25

“Though I have been exporting mangoes to EU for many years, post-harvest loss of mangoes is a common problem. Through this training I have got some ideas to utilize the rest mangoes to reduce the post-harvest loss.”

Md. Shafiqul Islam, Batch No. 26

“From this training I got a comprehensive idea about value addition of a product which will help me to boost up my business. I also learnt a lot about various cold storage system like mobile cooler, ZEEC etc. and cost-benefit analysis procedure of agribusiness. I really like the training and I am thankful to The Ministry of Commerce and Shushilan for arranging such a training”.

Md. Masud Rana, Batch No. 27

“I am working on secondary processing of agro-products but I could not progress in my business. This training helped me in finding out the tricks of such business as well as the risks in processing a product which will enrich my processing work. So, I think this training is a guideline for me”.

Mst.Dulari Khatun, Batch No. 27

“We learned about the agricultural value chain from this training which was completely new to me. I have learned that in value chain where my position is and how it will help me to move forward my business”.

Sweety Rani, Batch No. 29

“One of the great initiatives of the Ministry of Commerce is to work with women entrepreneurs in the processing of agricultural products. I feel blessed to have this training and I look forward to working with women entrepreneurs. I will try my best to run their business smoothly”.

Md. Robiul Islam, Batch No. 29

“In many parts of our country the farmers are producing good quality fruits and vegetables but due to lack of proper guideline they are not the part of export channel. So, I think this type of training is a crucial for that farmer.”

Md. Ezaz Ahmed, Batch No. 31

“Before joining this training I had no knowledge or idea about the value chain of a product, that’s why I have been cheated by the trader. From here I become clear about the value chain and value addition system and I will perform all the activities to add value in my products to raise up my position in the value chain”.

Sanchita Biswas, Batch No. 32

“This training seems a little different to me from other trainings. I think this training has been useful for ages. In the training we have learned how to start an agribusiness. We have learned more about business policy, manners etc and the training venue, food, the trainer skill everything was very good.

Md Zahidur Rahman, Batch No. 33

“From this training it is clear to me how women can play a great role in agro-economics. The knowledge that we have acquired from here if implemented in our working sector will help us in overcoming the loss every we have faced.”

Preetilata Biswas, Batch No. 34

“To become an entrepreneur, one has to face many kinds of risk and that’s why we are afraid of to be an entrepreneur. But from this training we have understand that how to tackle a risk and without taking the risk one can’t be successful in life.”

Rima Khatun, Batch No. 34

“I think if the women get such type of training more and more there will be tremendous change in agro-processing sector of Bangladesh. I myself never thought about that woman can be major part of our agriculture. Thanks Ministry of Commerce and Shushilan for opening our eyes.”

Taslima Akter, Batch No. 37

“The field visit on the fourth day of training has inspired me a lot. I am actually cultivating traditional crops. From now I will try to cultivate high value crops. I learned through this training that agriculture is a business. I also learnt about consumer demand and finding the right market is very important.”

Jannatul Ferdous Bristy, Batch No. 38

“I am working in agro-processing. From the first day of training, it seems that this training is for me. I got a clear idea of food processing, like HACCP, SOP, GMP etc. I learned a lot about what types of certificates need to run a business and where to get it. I will be able to further improve my agro-processing business in the future.”

Prinlaka Palma, Batch No. 38

“If I didn’t attend this training program it will be unknown to me that an educated woman can involve in agri-sector. Housewives like us should involve in agro-processing sector to became self-dependent. I am drawing attention of the authorized body to be connected with for our progress.”

Rokeya Akter, Batch No. 39

“This training is a new era for me. I have only worked in the domestic market so far but with this training I have learned how to prepare my products for foreign markets.”

Chanchal Chakraborty, Batch No. 39

“I like this training very much. Through this training program we have made a relationship among the 25 members of us. Hopefully we will keep in touch with each other and hold the track of agribusiness. If we can make a unity among us in case of production and marketing of our agro-products then we will be able to unbind ourselves from the middlemen syndicate and will get a good price of our products.”

Sultan Ahmed, Batch No. 40

“I am working with mushroom cultivation and supplying raw mushroom in my locality. By joining this training, I gain the knowledge about processed mushroom products and their market demand. As well as it’s now clear to me how I can expend my business through online marketing”.

Panna Barua, Batch No. 42

“This is a time demanding training program. Some of us inspired after knowing the activities of women entrepreneurs who are already involved in agro-processing. Here I find out the guideline about marketing linkage to boost up our business step by step. Further ICT based training will help us a lot.”

Zohura Begum, Batch No. 44

“From this training we have come to know about the value chain which will help us in improving our product quality and getting higher prices of our products. The most amazing thing is- we become familiar with ZEEC which will really help us to increase the self-life of fresh fruits and vegetables thus reduce the post-harvest loss.”

Md. Nazmul Islam, Batch No. 44

“Coconut production is higher in Barishal region. We used to sell the immature and mature coconut in our local market and other part of the country with a poor price. But we never think about the processing of coconut. From here we knew about the market demand of extra virgin and cold-pressed coconut oil. So, some of us already thinking about the idea of starting coconut processing to make these products. It’s a big challenge for us.”

Marjana Akter, Batch No. 46

“I never think about working in agriculture. But now I am involved in agro-business. After joining this training, I gain knowledge about sorting and grading system which is very important to improve product quality, to increase self-life and to get a good price. So, this training is very much fruitful for me.”

Sultana Popy, Batch No. 47

“A comprehensive training program containing all the steps of export market from cultivation to the last point of product shifting is a crucial need for us as many of producing export quality products and have almost all of the documents required to export.”

Saba Nawrin Poli, Batch No. 47

2.3.11 Monitoring the Training Programs

2.3.11.1 Monitoring Activities by BRCP-1(PMU Office)

The key personnel of BRCP-1 justified the entire training program through regular monitoring. Mainly Shaheena Sultana, Gender Specialist monitored all most all of the training programs. The monitoring activities of key personnel from BRCP-1 is attached here in tabulated form.

| Sl No. | Name | Designation | Visiting Batch No. | Purpose |
|--------|---------------------|-----------------------------|--|----------------------------|
| 1 | Md. Mijanur Rahman | Project Director | 01, 03, 31, 47 | Chief Guest & Monitoring |
| 2 | Md. Khalilur Rahman | Director (Deputy Secretary) | 01, 31 | Chief Guest & Monitoring |
| 3 | Dr. M Shahab Uddin | Project Manager | 7,8, 23, 24, 26 | Special Guest & Monitoring |
| 4 | Md. Sirajul Islam | Financial Expert | 04, 23, 25 | Special Guest & Monitoring |
| 5 | Makshudul AM Mondal | Focal Person Coordinator | 24 | Monitoring |
| 6 | Shaheena Sultana | Gender Specialist | 01, 02, 11, 12, 14, 18, 20, 27, 29, 30, 31, 32, 37, 38, 39, 41, 46, 47 | Monitoring |
| 7 | Tipu Sultan | Data Management Consultant | 03, 12, 13 | Monitoring |

2.3.11.2 Monitoring Activities by The Key Experts of Shushilan

Monitoring visit by the Team Leader, Dr. Sreekanta Sheel

The Team Leader, Dr. Sreekanta Sheel visited four times dated on 22th December 2020 at Village Education Resource Center (VERC) and Upazila Complex Auditorium, Savar, Dhaka), 14 January 2021 at Upazila Complex Auditorium, Delduar Tangail), 09 February 2021 at TMSS Technical Training Institute, Bagura) and 19 May 2021 at Upazila Complex Auditorium, Savar, Dhaka.

In all the venues, he observed that the participants were fruitfully attending the training sessions. He found that the classrooms, furniture, security and safety requirements were sound, venues were equipped with computers, multimedia projector, writing board etc, consumables (e.g., flip-chart, post-it, markers, etc.) were available to successfully run the training programmes. He also observed that the participants have been fully satisfied with the course and implementation methodology for the training programme. Training materials supporting the training were sufficiently available. Attendance register was being maintained with signing by the trainees every day at morning and afternoon both the times. Willingness of most of the trainees to apply the gathered knowledge/information, skills, methods and techniques were observed at higher level. He also observed that the trainers' knowledge, skills, techniques and deliberation style of the topics were sound enough. Alongwith the monitoring, he also delivered speech on the importance of the selected customized actions and attended the session in selecting the customized actions to be undertaken in future by the selected participants. He found high level willingness among most of the trainees who are highly ambitious to be entrepreneurs in their desirable entrepreneurship fields.

Monitoring visit by Agro-Processing Expert, Prof. Dr. S M Fakhru Islam

The agro-processing Expert, Prof. Dr. S M Fakhru Islam, visited five times dated on 26 November, 2020 (Zonal Co-operative Training Institute, Narsingdi), 10 Dec, 2020 (Village Education Resource Centre- VERC, Savar, Dhaka), 23 March, 2021 (Banchte Sekha Training Center, Jashore Sadar, Jashore), 24 May, 2021 (NGO Forum for Public Health Training Center, Cumilla Sadar, Cumilla) and 31 May, 2021 (Women Chamber of Commerce and Industry Hall Room, Sylhet Sadar, Sylhet).

During the visit of Dr. Islam, he found that all the participants were present in the class room. They actively participated in the classes and expressed their opinions whenever asked by the master trainer. They were also found to be energetic and interactive during presentation session. They also actively participated in group discussions and jointly completed an exercise given by the instructor. At the end of the training session, they provided their feedback about the training, many of them agreed to utilize this training knowledge for their business and will work for promoting exports of vegetables. For this purpose, they wanted more supports from the government.

The style of teaching of the master trainers found to be interactive. They were fluent, had sufficiently clear voice and had good eye contact with the participants. They were very keen on the interests of the students and eager to deliver their lectures in easy language, giving appropriate examples and using useful video clips in addition to Powerpoint presentations.

The training venues were found to be perfect and suitable for the participants. The class room had very good sitting arrangements and social distancing was followed.

Monitoring visit by the Value Chain Expert M A Mannan

M A Mannan, the Value Chain Expert visited the training program for monitoring purpose about eight times dated on 1 Dec, 2020 (Zonal Co-operative Training Institute, Narsingdi), 26 Jan, 2021 (Technical Training Institute- TTI of Thengamara Mahila Sabuj Sanga- TMSS

Bogura Sadar), February 16, 2021 (Asrai Training Centre, Paba, Rajshahi), March 1, 2021 (Asrai Training Center, Paba, Rajshahi and Horticulture Training Center, Kalyanpur, Chapainawabganj), 9 March, 2021 (Magura Sadar, Magura), 31 March 2021 (AID Central Training Center- ACTC, Jenaidah Sadar), 6 June 2021 (Sharishabari Upazila Hall Room, Jamalpur) and June 11, 2021 (Women Chamber of Commerce Office, Senpara, Rangpur Sadar).

It was observed that the targeted participants actively participated in the training session in a timely manner. The main activities of each training included specific topics such as determining the expectations of the participants of the training session. The objectives of the events were explained by ensuring recognition and understanding of the participants. Visual presentation activities added a different dimension to facilitate motivation through active participation and PowerPoint presentations. Group discussions and exercises were promoted to encourage interactive learning. The participants were encouraged to provide feedback and present their work through discussion. The main success factors were reviewed of each session as well as the challenges. An overall assessment of each training was done.

The participants were highly satisfied about the training objectives, quality of trainers and quality of the logistic arrangements. The style of the lecture method of trainers was observed to be interactive. The trainer's voice was clear and they had sufficient knowledge regarding the subjects.

They were able to understand the participant's expectations and delivered lectures, visuals and video presentations as per their need. Their eye contact was good with trainees. They delivered their lecture in easy and simple language with relevant example. He also observed that all the participants were responsive and cooperative in the classroom. The training venue was very much nice and environment friendly which was helpful for the trainees. The classrooms were very large and the seating arrangements were also very good for the trainees inside the room. Due to the large size of the rooms, it had been possible to maintain social distance among the trainees during Corona epidemic.

The session length and the time management have considered as the least satisfying aspects by the participants. The participants stated that five days was not enough for such type of training. They told to increase the number of days of the training in order to better understanding of the topics. The overall schedule of the training was well and discussed to more time for the targeted participants. After ending the session, Mr. Mannan wanted to know the feelings of the trainees. The participants said that they were very much satisfied with the performance of the training course and will be benefited from the course.

2.3.11.3 Trainers' Observation

The trainers of the concerned training batches observed the course implementation activities. They observed that, the participants of all batches were very sincere about the training program. The participants reached the training center within the scheduled time. All of them attended in the discussion session spontaneously. They asked different questions related to the topics. They were very active during the whole training program. In discussion session they tried their best to response perfectly. The participants showed their best performance in the practical session and group work. The participants took note on the important topics. Some of the participants were really showed their positivity to involve in the business of processed fruits and vegetables and exporting of agro-products after attending this training program. Among the forty-seven batches the participants of batch 1, 3, 5, 7, 10, 11, 12, 14, 17, 18, 20, 22, 25, 27,27, 29, 31, 32, 33, 34, 39, 41, 44 and 47 were more active than others. But the trainers realized that most of the women participants were bound to their family and society that's why they couldn't work widely in agro-processing sector.

During the 5-day long training program of each batch the trainers observe contemplation level of the trainees, their educational qualification, previous experience, patience and overall performance and their willingness to engage in the export market at the end of the training. Considering all the above issues, the trainers found out the following views-

- Some entrepreneurs (Batch- 02) have shown great interest in this training program. Trainer feel that the quality of agricultural product they produce were good enough and can be exported by meeting some of their specific needs.
- Most of the female members (Batch- 03, 29, 45) have emphasized on secondary processing and had shown considerable skills in this field and trainees were looking for linkage with exporter to export their vegetables because they are producing quality-full vegetables.
- The trainees of this batch (Batch- 04 & 05) showed the interest to export their products and some of them were producing and supplying vegetables to the terminal market of the country.
- Some of the trainees (Batch- 06) were seeking help from the authorized body to make linkage with the renowned super shop to supply their fruits and vegetables.
- During the training, most of the female members (Batch- 08) have emphasized on secondary processing and had shown considerable skills in this field. Adequate attention was paid to the trainees during the training session.
- In Kapasia upazila of Gazipur, the trainees (Batch- 09) focused on some of the different initiatives (i.e., taro and jackfruit cheeps) if implemented, the local economy will really improve.
- Most of the trainees (Batch- 10) were involved in the production of Chinese vegetables who demand a cold storage for preservation. Trainers think building a cold storage will help them in getting a quality market value.
- The literacy rate of the trainees in the 11th and 12th training batches was eye-catching. The women entrepreneurs who already reached the higher market of the country had shown interest in exporting vegetables.
- The trainees of this batch (Batch- 15) showed the interest to export their products and some of them were producing and supplying quality seed of various vegetables.
- The trainees (Batch- 16) were looking for linkage with exporter to export their seedless lemon because they are enriched with lemon cultivation.
- The trainees (Batch- 17) focused on some of the different initiatives (i.e., pineapple and papaya processing) if implemented, the local economy will really improve and were seeking help from the authorized body to make linkage with the renowned super shop or food company to supply their processed food.
- Some of the trainees (Batch- 20) producing high value crop and supplying them within the country, after attending this training program they had really shown their positivity to involve in exporting of agro-products.
- Most of the trainees (Batch- 24) were engaged in potato cultivation, so if they get some scope from government in diversification of potatoes this will play a great role in national economy.
- Some of the trainees were seeking help from the authorized body to make linkage with
- The literacy rate of the trainees was eye-catching. The entrepreneurs who already reached the higher market of the country had shown interest in exporting vegetables.

- The trainees (Batch- 26) focused on some of the different initiatives (i.e., mango processing) if implemented, the local economy will really improve.
- The trainees of batch 28 showed the interest to export their product (mango) and some of them were producing and supplying export quality vegetables. They were looking for linkage with exporter to export their mangoes because they are enriched with mango production.
- Batch 29 was enriched with young entrepreneurs. Most of the trainees of this batch are producing organic vegetables by working in different groups like CIG.
- A few trainees of batch 30 were interested in secondary processing of green fruits, so if they get some scope from government in secondary processing activities this will play a great role in starting their business.
- There are some entrepreneurs (batch 31& 33) who are producing good quality mushroom. So if they were seeking help from the authorized body to make linkage with the renowned super shop or food marketing company to supply their products.
- Most of the trainees (batch 32 & 35) were involved in the production and local marketing of fruits and vegetables who demand a cold storage for preservation. Trainers' perception is- building a cold storage would help them in getting a quality market value.
- "Shatkora" is a popular citrus fruit of this region and some of the entrepreneurs (batch- 41) were interested to make processed products from shatkora like pickle, powder etc. if marketing is promoted by the govt.
- Some of the trainees (batch- 44) were seeking help from the authorized body to make linkage with the renowned super shop or food marketing company to supply their processed food. As plenty of pineapples are produced here, so if they get some scope from government in diversification of potatoes this will play a great role in national economy.
- The trainees (batch- 46) focused on some of the different initiatives (i.e., guava and coconut processing) if implemented, the local economy will really improve.
- Most of the female entrepreneurs (batch- 47) of this batch were established in different sector. The entrepreneurs who already reached the higher market of the country had shown interest in exporting fruits and vegetables.

2.3.11.4 Overall Monitoring by the Training Executing Agency (Shushilan)

The overall monitoring of the training programs by the training executing agency (Shushilan) are presented below:

| Set of indicators | Performance Level Monitored |
|---|---|
| 1. Financial resources | Budget for the implementation of the training programs was sufficient. Costs for travel of trainers and participants adequate to fruitfully implement the training program. |
| 2. Competence of administrative/communicating staff | Administrative/communicating staff performed their duties fruitfully particularly in selecting the trainlines and organizing the training programs. |

| Set of indicators | Performance Level Monitored |
|--|---|
| 3. Competence of trainers | Trainers' knowledge, skills, techniques and deliberation style of the topics were sound enough. The concerned experts provided ToT and time to time refreshers' training to them that helped them fully capable to execute the training activities efficiently. |
| 4. Infrastructure, Equipment and other logistic supports | Classrooms (e.g., size per number of participants), furniture (e.g; tables, chairs), security and safety requirements (e.g., emergency plan), venue equipped with computers, multimedia projector, writing, board etc, availability of consumables (e.g.; flip-chart, post-it, markers, etc.) and travel arrangement were sound enough to successfully run the training programs. |
| 5. Participants' expectation/ satisfaction | Participants' expectation about outcome, training activities, content, printed training manual in Bengali, applicability of the training issues to the specific work context were met up and they have been fully satisfied with the course and implementation methodology for the training program. |
| 6. Didactic organization | Ratios of i) administrative staff and participants, and ii) trainers and participants were sound enough to maintain the program at a standard level. Structure of the course (i.e., calendar, schedule, length, etc.) was well organized. Training materials supporting the training were sufficiently available. |
| 7. Attendance registration system | Attendance register was maintained with signing by the trainees every day at morning and afternoon both the times. |
| 8. Time management system | Timetable of training courses were strictly maintained in compliance with the foreseen deadlines |
| 9. Willingness to apply acquired competences | Willingness of most of the trainees to apply the gathered knowledge/information, skills, methods and techniques were observed at higher level. |
| 10. Applicability of acquired competences | Applicability of the gathered knowledge /information, skills, methods and techniques by the trainees were observed as sound enough. |
| 11. Context | The context of participants' job/activity and visibility of the initiative at pre-training stage indicated that they would be capable enough to apply the knowledge and skill to be achieved from the training. |
| 12. Preliminary and Course final test on competences of participants | To assess the level of knowledge of participants at before and end of the training course, pre- and post-evaluation tests were performed. The comparative results of the tests and the improvement in their knowledge level have been discussed in Section-2.3.8. |

| Set of indicators | Performance Level Monitored |
|--|--|
| 13. Participants' satisfaction questionnaire | To collect data on the participants' perception of the training course, a questionnaire for collecting participants' opinion on the course/program evaluation was used while the participants provided their opinions anonymously. |
| 15. Trainers' observation reports | To assess the course implementation from a trainers' perspective, the trainers provided their reports that have been summarized in Section-2.3.9.2. |
| 16. Key Experts' observation reports | To assess the course implementation from an expert's perspective view, the key experts visited training venues to observe the training implementation status and provided their reports that have been presented in Section-2.3.9.1. |

2.3.12. Evaluation of the Assignment

The training program on “Increasing Women’s Participation in The Agro-Processing Sector in Bangladesh” under BRCP-1(MoC) was held to find out the women entrepreneurs who are working in the agricultural sector specially in secondary processing of fruits and vegetables, export market etc. and to grow entrepreneurship among the women. There were 3 components under this assignment such as:

- i. Refinement of Training Needs Primarily Identified by the Project
- ii. Development/ Designing of The Training Curriculum
- iii. Implementation of the Training Program

The goal of this training program is to boost up the agro-processing sector of our country as well to reach the export market. The whole training program was evaluated from different point of view to make the program fruitful. The project was evaluated based on the following steps-

2.3.12.1 Evaluation on Need Assessment

A need assessment survey was done before the implementation of the training program. The study used both primary and secondary data. The secondary data were collected from various documents and statistical year books. Primary data have been collected through-

- 1) Survey using questionnaire with the help of face-to-face interview of the sample respondents
- 2) Focus Group Discussions (FGDs) and
- 3) Key Informant Interviews (KIIs)

According to plan the field survey conducted during March-June, 2020. Due to outbreak of COVIT-19 completion of the survey delayed due to lockdown. Enumerators were responsible for collection of data from sample respondents. Following were their main responsibilities:

- Visit the selected respondents and ensure their participation
- Obtaining consent to conduct the interview, if needed

- Conduct face-to-face interviews (QS and KII)
- Ensure completeness and accuracy of answers and perform accuracy checks on the questionnaires

The data collection tools drafted considering the main objectives of refining training needs of the target entrepreneurs. The data collection tools have been finalized through incorporating feedback from BRCP1 and pre-testing from the field. Following data collection tools were prepared considering the objectives of the study:

- 1) Questionnaire for farmers
- 2) Questionnaire for local traders and wholesalers
- 3) Questionnaire for the processors
- 4) Questionnaire for the exporters
- 5) Check list for Key Informants Interview (KII) and
- 6) Checklist of Focus Group Discussion (FGD)

Shushilan had successfully completed the need assessment survey without facing any difficulties. The need assessment survey was done to select the target area, find out the problems related to agro-processing and agribusiness of the beneficiaries, specific fruits and vegetables that need improvement for export purpose etc. It also helped to finalize the training program of participants as well as training module and curriculum. In the beginning assessment survey was done on the producer of vegetables and fruits, local traders, processors and exporter etc. But this training program mainly targeted the local traders, processors (primary and secondary) and exporters.

2.3.12.2 Evaluation on Training Curriculum & Module

The training curriculum and module was developed depending on the essentiality and knowledge level of the participants. The training module was developed focusing on the topics that are important for improving the knowledge level of selected participants in respect of-

- a) Agro-processing to gain good market value and
- b) Export market to reach the target position

Some of the contents of the module (e.g., GAP- Good Agriculture Practice, Pre- and Post-harvest management of fruits and vegetables, ZEEC- Zero Energy Evaporative Cooler, Value chain development, Entrepreneurship development etc. are really enjoyable to the participants. But some contents like Quality and food safety assurance for processed products focusing GMP and HACCP, Procedure of export marketing and export growth of fresh and processed fruits and vegetables etc. were completely new to most of the participants so it was somehow difficult to reach understanding level of participants. Hence it was a big challenge for Shushilan to attain the percieveness of the participants. Though all the topics included at least one video presentation, to make the difficult topics enjoyable the trainer of Shushilan had to-

- ✓ Show more interesting and effective video presentation
- ✓ Provide easily applicable examples
- ✓ Practical sessions and group exercise were also included with some topics for better understanding of the participants

2.3.12.3 Evaluation on Participant Selection

In aspects of agro-processing sector among the 1175 participants of the training program all the participants were not belong to the satisfactory level in case of secondary processing and export market but they were actively involved in other agricultural activities like cultivation, primary processing, marketing etc. In upazila level most of the women entrepreneurs were involved in primary stage that means production or cultivation. A few of them had vast knowledge and experience in secondary processing of fruits and vegetables. It was also observed that in some cases the education level that required to understand the modern technology related to secondary processing of fruits and vegetables was not up to the mark. Besides the women entrepreneurs of Women Chamber of Commerce are enough knowledgeable about export marketing and processing.

The team leader and consultants sorted out the following reasons behind ignorance of women entrepreneurship in agro-processing sector-

- i. Lack of enough educational qualification
- ii. Having no clear-cut idea about the marketing channel
- iii. Lack of knowledge export procedure
- iv. Difficulties in collecting export documents
- v. Having no idea about the prospects and potentiality of secondary processed food and export market

The responsible key person of BRCP-1 evaluated the selected entrepreneurs from different aspects. In some areas they found some potential entrepreneurs for whom they are looking for. They saw enthusiasm among some entrepreneurs to work in agro-processing sector. Again, some of them were not actually interested to work in this sector. Honorable project manager Dr M Shahab Uddin and the gender specialist Shaheena Sultana listed some entrepreneurs who are capable of strengthening the sector of secondary processed food like jam-jelly, pickle, spice powder etc. as well as export market of mango, shatkora and some specific vegetables- Rupban bean, Kochur loti, ash gourd, eggplant.

The following pie-chart shows the understanding level of participants in case of agro-processing sector (secondary processing) and export market from 5 points of view (Excellent, Very-good, Good, Satisfactory& Below satisfaction)-

Satisfaction Level of Participants in agro-processing

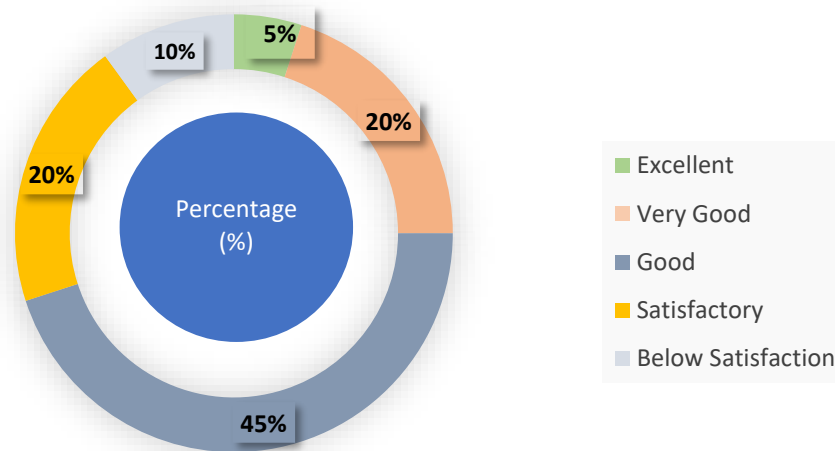

Figure 4. Percentage of satisfaction level of participants in agro-processing

2.3.12.4 Evaluation on Training Implementation

Implementation of this training program held took place in between 19 October 2020 to 20 June 2021. From 2020, the whole world including Bangladesh has been suffering from pandemic of COVID-19. As it is very infectious virus, government has restricted social gatherings and the normal activities of everyday life stunted. However, government had made mandatory to follow WHO's safety guideline like maintaining of social distancing (1 meter distance) between two-person, frequent hand sanitization with appropriate sanitizers, use of mask when staying outside of home, washing hands with soap continuously for 20 seconds for all to prevent the vast outbreak of COVID19. This COVID-19 has slowed down and hindered many of the activities of this project. So, it was a challenge for Shushilan to complete the project activities within the targeted time period.

In this training program, in every batch, 75 percent of participants must be women. In our society, homesteads are the domain of the women and they have to involved many household activities of a family. It was really difficult for the women participants to stay at training program from 9:00 am to 5:00 pm. So, it was a big challenge for us to keep them in the training program from 9:00 am to 5:00 pm for 5 days where, they were needed another one hour more for coming to the venue and one hour for going back to home. To solve this problem, Shushilan has motivated the selected participants very well about the importance of the training, rules of the training. Besides, during training period, some ice breaking and

refreshment activities had introduced to make the training lively and interesting. Most of the participants of training batches were very dutiful, all of them tried to reach the training centre in exact time.

In a few areas the training venue was not to the satisfactory level, this happened for the following three reasons-

- ✓ Outbreak of COVID19 pandemic
- ✓ Distance measurement in regards of the participants address
- ✓ Lack of modern training centres in some selected areas

Scope of agro-processing sector in Bangladesh

- There are year-round production of different types of fruits and vegetables. So, if the standards of GAP can be applied in the field level targeting agro-processing sector especially secondary processing and export market our national economy will be benefited.
- Bangladesh has to import various type of fresh and processed food products from other countries- in that case there are great opportunities to properly utilize the available raw materials to produce the target products.
- In southern part of the project area especially Jashore and Jhenaidah mushroom cultivation and processing became very popular so if any special concentration can be given to the mushroom entrepreneurs this sector will be a bless in our processing sector and export market.
- The pineapple production is higher in Bandarban and Tangail district, women entrepreneur of these regions showed their interest to work with the secondary processing of this fruit.
- There are huge opportunities to think about various processed products of potato, jackfruit and mango to catch the national and international market and shushilan also find out the interested participants.

Finally, it can be said that agro-processing sector and export market of Bangladesh will be developed in near future if the following opportunities can be provided to the selected entrepreneurs-

- ✓ Handsome training on secondary processing
- ✓ Easy collection of necessary export documents
- ✓ Connection with proper market channel

2.3.13 Implementation of Post-Training Refreshers' Workshop

During implement of trainings sessions, many issues/questions arised that require to discuss elaborately but the session time limit doesn't allow to go deeper on the issues. These issues were highly helpful for real life agribusiness implementation for the entrepreneurs. To discuss some important issues as well as to gather necessary future actions that may be undertaken by the trainees, 4 refresher workshops were organized for the trainees at Narshindi, Rajshahi, Rangpur and Jessore. The key findings of the post training refresher workshops are described here:

i. The first day long post training refresher workshop at Narshingdi

The first day long post training refresher workshop was organized by Shushilan on 13 December 2020 at Narsingdi. A total of 40 persons comprising the trainees, Upazilla Nirbahi Officer and Upazilla Agriculture Officer of Narsingdi, relevant technical and managerial personnel of BRCP-1 and Shushilan attended the workshop. The 30 participants from Narsingdi districts were divided into 5 groups based on their customized action that they wanted to perform after taking the support from authorized body. The customized action of the four groups were:

- ✓ Establishment of pack house for fruits & vegetables- Group 1
- ✓ Secondary processing of banana & jackfruit- Group 2
- ✓ Fresh cut of vegetables and home delivery- Group 3
- ✓ High value crop production and marketing- Group 4
- ✓ Cold storage installation for mango- Group 5

Following infrastructural needs were identified by the workshop participants:

- Construction of specialized cold storage for vegetable and banana.
- Construction of packing house for vegetable and banana value addition
- Ensuring reasonable supply of affordable and durable packaging materials
- Plenty of transport is needed to reduce transport cost
- Direct contact of exporters with the farmers
- Provide modern equipment and training to make secondary processed products from vegetable and banana
- The future interventions (in the upcoming pilot activities under BRCP-1) to be undertaken using the principles of business incubations or business service provision for the selected participants.
- Emphasis on women entrepreneurs from central level is highly expected.
- Logistics and financial support required from Government or concerned authority.
- Continuation and expansion of Agri-entrepreneurs training.
- Providing loan without or with low interest for Agri entrepreneurs.
- Offering bundled and multi-sided services like digital Agri marketing.
- Collaboration between public and development institutions is required in developing Agri women entrepreneurships and its sustainability.
- Syndicate free market could create opportunities for the Agri entrepreneurs to move forward.
- To support market development in agribusiness through introducing ICT
- Managing easy transport to divisional cities through cold chain management (refrigerated van)
- Need of a women friendly market
- Food processing companies need to ensure proper management in purchasing raw materials directly from farmers.

ii. The second post training refresher workshop at Rangpur

The workshop was organized by Shushilan on 13 February 2021 at 09:00 am to 05: 00 pm. A total of 40 persons comprising the trainees, relevant technical and managerial personnel of BRCP-1 and Shushilan attended the workshop. Thirty participants from 5 upazillas of Bogra Sadar, Shibganj, Rangpur Sadar, Mithapukur and Pirganganj were divided into 4 groups

based on their customized action that they wanted to perform after taking the support from authorized body. The customized actions of the four groups were:

- ✓ Processing of spices into powder form and marketing- Group 1
- ✓ Establishment of cold storage for fruits and vegetables- Group 2
- ✓ Secondary processing of Potato- Group 3
- ✓ High value crop production and marketing- Group 4 & 5

The team leader compiled the entire infrastructural requirement to improve the agribusiness sector based on different crops.

Following infrastructural needs were identified by the workshop participants:

- Need modern equipment and training to make secondary processed products from Potatoes
- Providing the necessary raw materials and technology for making chips from potatoes
- Ensuring reasonable supply of affordable and durable packaging materials
- Providing dryer machine for making amchoor or ripe mango powder from ripe mango
- Direct contact of exporters with farmers
- Need advanced training in making powder from potatoes
- Need equipment for processing secondary food from onions
- Managing easy transport to divisional cities through cold chain management (refrigerated van)
- Need a women friendly market
- Advanced training for making powder from drum stick leaves
- Some initiatives may be taken to produce exotic vegetables in some districts of the country to catch the market of renowned restaurant of the country.
- Providing loan without or with low interest for agro-entrepreneurs.
- Training on how to make its powder from different spices
- Ensuring easy receipt of various types of certificates for exporters
- Food processing companies need to ensure proper management in purchasing raw materials directly from farmers.

iii. The third post training refresher workshop at Rajshahi

The workshop was organized by Shushilan on 04 March 2021 at 09:00 am to 05: 00 pm. A total of 43 persons comprising the trainees, relevant technical and managerial personnel of BRCP-1 and Shushilan, UNO, UAE of Paba upazilla and Deputy Director, DAE of Rajshahi attended the workshop. Initially 30 participants from four upazilla of Rajshahi and Chapainawabganj districts were divided into 4 groups based on their customized action that they wanted to perform after taking the support from authorized body. The customized actions of the four groups were:

- Establishment of pack house for mango- Group 1
- Secondary processing of tomato and plum- Group 2
- High value crop production and marketing- Group 3
- Cold storage installation for mango- Group 4

The project director gave directions on the solution and what kind of facilities the ministry could provide. Since Rajshahi division cultivates different types of crops, the team leader compiled all the infrastructural requirements to improve the agribusiness sector based on different crops:

Following infrastructural needs were identified by the workshop participants:

(1) Mango

- Construction of cold storage for mangoes
- Construction of packing house for mango value addition
- Ensuring reasonable supply of affordable and durable packaging materials
- Providing dryer machine for making amchoor or ripe mango powder from ripe mango
- Eliminate additional tariffs on fruit bag imports
- Plenty of transport is needed to reduce transport cost or to provide low-cost mango courier services across the country during the mango season
- Direct contact of exporters with farmers
- Provide modern equipment and training to make secondary processed products from mangoes

(2). Tomato and potato

- Provide the necessary raw materials and technology for making chips from potatoes
- Need advanced training in making powder from potatoes, tomatoes
- Need equipment for processing secondary food from tomatoes
- Stop import of tomatoes from India
- Materials required for summer tomato cultivation and supply of good quality seeds

(3). Plums and guavas

- Managing easy transport to divisional cities through cold chain management (refrigerated van)
- Training to make jam, jelly from guava
- Need modern packaging equipment

(4). Others

- Need a women friendly market
- Advanced training for making powder from drum stick leaves
- Training on how to make its powder from different spices
- Ensuring easy receipt of various types of certificates for exporters
- Food processing companies need to ensure proper management in purchasing raw materials directly from farmers.

iv. The Fourth post training refresher workshop at Jessore

The workshop was organized by Shushilan on 19 June 2021 at 09:00 am to 04: 00 pm. A total of 36 persons comprising the trainees, trainers and relevant key personnel from Shushilan attended the workshop. Initially 30 participants from two upazilla of Jashore, two upazilla of Magura and two upazilla of Jhenaidah were divided into 5 groups based on their

customized action that they want to do after joining the training with the support of authorized body. The customized actions of the five groups were-

- ✓ Cultivation and secondary processing of mushroom- Group 1
- ✓ Processing of chalkumrobori, moringa leaves and lemon powder - Group 2
- ✓ Establishment of cold storage for fruits and vegetables - Group 3
- ✓ Secondary processing of fruits and vegetables- Group 4
- ✓ High value crop production and marketing- Group 5

The team leader compiled all the infrastructural requirement to improve the agribusiness sector based on different crops.

Following infrastructural needs were identified by the workshop participants:

- Need modern equipment and training to make secondary processed products
- Ensuring reasonable supply of affordable and durable packaging materials
- Direct contact of exporters with farmers
- Managing easy transport to divisional cities through cold chain management (refrigerated van)
- Creating awareness among people about the health beneficials of mushroom
- Providing dryer machine for making amchoor or ripe mango powder from ripe mango
- Need a women friendly market
- Advanced training for secondary processing of fruits and vegetables
- Some initiatives may be taken to produce exotic vegetables in some districts of the country to catch the market of renowned restaurant of the country
- Providing loan without or with low interest for agro-entrepreneurs
- Training on how to make its powder from different spices
- Ensuring easy receipt of various types of certificates for exporters
- Food processing companies need to ensure proper management in purchasing raw materials directly from farmers.

3. LESSONS LEARNED

A participatory systematic facilitation approach was adopted to facilitate a 5-day long training program which Shushilan conducted at the training events for 47 batches by ensuring successful arrangement and efficient planning and management. The overall objective of this capacity building programme was to ensure active and sustainable cooperation among trade related stakeholders and economic empowerment of women traders particularly for increasing women's participation and facilitating their export potentials in the agro-processing sector in Bangladesh.

From the implementation of the training programme throughout the country some important lessons have been learned:

- a. The willingness observed among the women participants on entrepreneurship development proves that if the necessary infrastructural support along with hands on training is provided for them, they could really be able to be the entrepreneurs.
- b. However, gender equality particularly equitable access to all necessary facilities is required, and hence gender sensitive value chain as well as market system approach should be the significant initiative.

- c. As the business incubation system has been in the mean time has been a proven approach in different developed and developing countries, therefore it is beneficial to adopt such approach for the development of the women entrepreneurship in the country.
- d. A large number of customized actions have been proposed by the trainees; however, before implementing the activities it is important to match the activities with the capabilities of the concerned women group along with the pre-feasibility study at the concerned contexts of the women groups.
- e. The business incubation system would be decentralized at least at the divisional city level so that the women entrepreneurs could have well access to the facilities.

4. RECOMMENDATION

From each batch a number of participants have been selected for future training program. The selected participants are expected to be really capable of performing the entrepreneurship that was proposed by them. The following recommendations are made from the implementation of the training programme:

- Support to agro-entrepreneurs may improve capacities to access capital market and value chain.
- The knowledge gathered from the training will help to create a large market of diverse fresh and processed fruits and vegetables along spices and mushroom products throughout the country.
- Emphasis on women entrepreneurships is highly expected particularly providing necessary infrastructural facilities along with entrepreneurship nursing activities like business incubation.
- Machinery/equipment support for secondary processing and packaging is to be given more emphasis particularly for export purpose.
- Collaboration between public and development institutions is required in developing women's agro-entrepreneurships and its sustainability.
- The future interventions (in the upcoming pilot activities under BRCP-1) to be undertaken using the principles of business incubations or business service provision for the selected participants.
- Logistics and financial support from the concerned authorities including providing loan with low interest rate for the agro-entrepreneurs.
- Continuation and expansion of agro-entrepreneurs training for the new batches.
- Offering bundled and multi-sided services like digital agro-marketing is significantly required.
- Some initiatives may be taken to produce Chinese and other exotic vegetables in some districts of the country to access the market of renowned restaurant of the country and to stop the import of these vegetables.

- Syndicate free market may create opportunities for the agri-entrepreneurs to move forward.
- Residential training on the aspect is preferable as suggested by most of the trainees.

5. CONCLUSION

The women's entrepreneurship training program was mainly held to increase the participation of women in agro-processing sector and to boost up their knowledge. Shushilan team along with the Ministry of Commerce facilitated the training program. This training is expected to help the women to overcome various barriers and create new entrepreneurship among them. In the future training programs for the selected trainees, use of business incubation principle in implementing the customized entrepreneurship activities would be a good option for creating the women entrepreneurship in the agro-processing sub-sector. The necessary infrastructure and the incubation process with the decentralized way at least at the divisional city level could be really helpful in developing the women's entrepreneurship particularly for the screened participants from the training batches.

Annex-1: Participant Profile up to Union Level with Selected Customized Entrepreneurships

Batch No. 01 & 02 (Piloting)

The format of customized entrepreneurships had been included after the piloting activities. So, the participants of piloting batch (Batch No- 1 & 2) couldn't take part in customized actions

Batch No. 01 (Dhaka City Corporation, Dhaka)

| SL No | Participants Name | Father/ Husband Name | Occupation | Mobile Number | NID No | District | Upazilla | Union |
|-------|----------------------|----------------------|---|---------------|-------------------|----------|------------|-------------|
| 1 | Afruja Rahman | Fajlur Rahman | Vegetable Cultivation | 01764635013 | 7796922941 | Dhaka | Dhaka City | Mirpur |

Annex-5: List of Export Potential Product In Particular District Or Region

| District/Region | Export Potential Products | |
|--------------------------------------|---------------------------|--|
| Narsingdi | Fresh | Fruits (Specially banana, latkan) Vegetables (Specially rupban bean, egg plant, gourd etc.) |
| | Processed products | Banana chips, pickle (olive, mango etc.) |
| Gazipur | Fresh | Jackfruit |
| | Processed products | Jackfruit chips, pickle |
| Rajshahi, Chapainawabganj | Fresh | Mango, Tomato |
| | Processed products | Tomato sauce, jam-jelly, juice, pulp, bar, pickle of mango, mango & drumstick leaves (Shojne pata) powder |
| Rangpur, Bogura | Fresh | Hariavanga mango, Potato |
| | Processed products | Spices (powder form), potato chips, potato flour |
| Jashore | Fresh | Vegetables (Specially bean, cauliflower, pumkin, cabbage, mashroom etc.) Fruits (lichi, kashmeri kul, guava etc.) |
| | Processed products | Pickle of different fruits |
| Jhenaidah | Fresh | Mashroom |
| | Processed products | Dried & powder form of mashroom, pickle of mashroom |
| Sylhet | Fresh | Shatkora, Jara lebu, Red bean |
| | Processed products | Pickle of shatkora |
| Barisal | Fresh | Guava, Hog-plum, Coconut |
| | Processed products | Jam-jelly of guava, pickle of hog-plum, coconut powder & oil, dried coconut etc. |
| Bandarban | Fresh | Pineapple, Malta, Mango, casew nut |
| | Processed products | Chips of pineapple, dried pineapple, jam-jelly & juice of malta, mango & pineapple, mango pulp, mango bar and pickle |
| Tangail | Fresh | Seedless Lemon, Pineapple |
| | Processed products | Chips, jam-jelly & candy of pineapple, dried pineapple |
| Cumilla | Fresh | Kochur loti |

Annex-6: Training, Workshop Plan and Schedule

Training Schedule:

| Time | Contents/Activities | Media/ Materials |
|--|---|---|
| Day-1 | | |
| 9:00-9:30 | Registration and opening session | |
| Thematic Area-A: Training Course Introduction and Pre-harvest Management of Fruits and Vegetables | | |
| 9:30-10:00 | Topic A-1. Introduction of course objectives and training plan | |
| | <p>Learning Objective:</p> <ol style="list-style-type: none"> To introduce course objectives and the training plan to the participants The participants will be aware on the course content and overall benefit of the training course <p>General training conditions: Open learning atmosphere; asking questions and active participation</p> <p>Message: Introduce the training plan, objectives, and yourself! Use this introduction round to give the participants more information about the training!</p> <p>Hints for the trainer: Note the expectations of the participants. Ensure that they are realistic according to the course outline and attempt to ensure that these are met during the course. Keep the list until the last day. This is to be shown again to confirm that participants' expectations have been met.</p> | Power Point Presentation, Training Manual |
| 10.00-11.00 | Topic A-2. Standard for Good Agricultural Practices (GAP): Fruits and Vegetables | |
| | <p>Learning Objectives:</p> <ol style="list-style-type: none"> The participants will be familiar on the standard for good agricultural practices (gap) for fruits and vegetables They will be aware on the food safety aspects for fruits and vegetables production that are to be dealt during application of good agricultural practices | Power Point Presentation, Training Manual |
| 11.00-11.30 | Tea Break | |
| 11.30-12.00 | Discussion on Topic A-2. | |
| 12.00-13.00 | Topic A-3. Pre-harvest and harvest factors affecting the post-harvest behaviour of fruits and vegetables | |
| | <p>Learning Objective:</p> <ol style="list-style-type: none"> The participants will be familiar on pre-harvest and harvest factors that are affecting the post-harvest behaviour of fruits and vegetables They will be aware on how the pre-harvest factors are responsible for the qualitative diversity of fruits and vegetables | Power Point Presentation, Training Manual |
| 13.00-13.30 | Discussion on Topic A-3. | |
| 13.30-14.15 | Lunch and Prayer | |
| Thematic Area-B: Primary Processing (Post-harvest Handling of Fresh commodities) | | |
| 14.15-15.15 | Topic B-1. Harvesting, postharvest handling, packaging, transportation and storage of fruits and vegetables | |
| | <p>Learning Objective:</p> <p>This lesson has been designed to improve the knowledge level and skill of the trainees on the</p> | Power Point Presentation, Training Manual |

| | | |
|--|---|--|
| | <p>following areas:</p> <ol style="list-style-type: none"> 1. Importance of postharvest management practices of fresh vegetables. 2. Best practices of post-harvest management of fresh vegetable and fruits 3. Reducing quantitative and qualitative post-harvest loss of fresh vegetable and fruits and increase profitability 4. Retaining quality of fresh fruits and vegetable at postharvest level | |
| 15.15-17.00 | Practical Session on Post-harvest Handling of Fresh commodities | <p>Plastic crate/ Carton, sorting-grading facilities,</p> <p>Board papers/ marker pen/ board stand</p> |
| Day-2 | | |
| 8.30-9.00 | First day recap | |
| 9:00-10:00 | Topic B-2. Cold chain management for fruits and vegetables | |
| | <p>Learning Objective:</p> <p>The participants will be familiar on the following aspects:</p> <ol style="list-style-type: none"> 1. Increasing shelf-life of fruits and vegetables through cold chain management practices 2. Diverse practices of cold chain management of fresh vegetable and fruits 3. Reducing quantitative and qualitative post-harvest loss of fresh vegetable and fruits and increase profitability 4. Retaining freshness and quality of fresh fruits and vegetable at postharvest level | <p>Power Point Presentation, Training Manual</p> |
| 10.00-10.30 | Discussion on Topic B-2. | |
| Thematic Area-C: Secondary Processing (Processing into Shelf-Stable Products) | | |
| 10.30-11.30 | Topic C-1. Secondary processing technologies for fruits and vegetables focusing intermediate and shelf-stable processed products | |
| | <p>Learning Objective:</p> <p>The participants will be aware on:</p> <ol style="list-style-type: none"> 1. The principles and methods of preservation of fruits and vegetable through processing in to shelf-stable products 2. How to preserve green fruits through steeping preservation method and successive processing thepreserved fruits into diverse products | <p>Power Point Presentation, Training Manual</p> |
| 11.30-11.45 | Tea Break | |
| 11.45-12.15 | Discussion on Topic C-1. | |
| Thematic Area-D: Food Safety and Quality Assurance of Fresh and Processed Commodities | | |
| 12.15-13.15 | Topic D-1. Quality & Food Safety Assurance and Sanitary & Phyto-Sanitary Standards (SPS) for Fresh Fruit and Vegetables | |
| | <p>Learning Objective:</p> <p>The participants will be aware on:</p> <ol style="list-style-type: none"> 1. How to maintain food safety and quality of fresh fruits and vegetables at post-harvest level | <p>Power Point Presentation, Training Manual</p> |

| | | |
|---|---|--|
| | <ol style="list-style-type: none"> 2. Sanitary and Phyto-sanitary standards required for exporting/importing fresh fruit and vegetables 3. Traceability for fresh fruit and vegetables | |
| 13.15-14.00 | Lunch and Prayer | |
| 14.00-15.30 | Practical Session on quality and food safety assurance for exporting/importing fresh fruit and vegetables | Board papers/ marker pen/ board stand |
| 15.30-16.30 | Topic D-2. Quality and Food Safety Assurance for Processed Products Focusing GMP and HACCP | |
| | <p>Learning Objective:</p> <p>The participants will be knowledgeable on:</p> <ol style="list-style-type: none"> 1. How to maintain food safety and quality of processed products from fruits and vegetables 2. Compliance on GMP and HACCP for processed fruits and vegetables | Power Point Presentation, Training Manual |
| 16.30-17.00 | Discussion on Topic D-2. | |
| Day-3 | | |
| | | |
| 8.30-9.00 | Second day recap | |
| Thematic Area-E: Value Chain Development | | |
| 9:00-10:00 | Topic E-1. a) Understanding of value chain concept, identification of major constraints and their solution and b) Gender Equality as an Underlying Reason to Value Chain Efficiency | |
| | <p>Learning Objectives:</p> <p>The trainees will be able:</p> <ol style="list-style-type: none"> 1. To learn the concept of value chain 2. How to Identify value chain constraints of fruits and vegetables 3. To Improve their knowledge level on resolving major value chain related constraints 4. To know how the gender equality could be the underlying reason to value chain efficiency | Power Point Presentation, Training Manual |
| 10.00-11.00 | Practical Session/Group Exercise on identification of major constraints in agro-processing value chains and their solution | Board papers/ marker pen/ board stand |
| 11.00-11.15 | Tea Break | |
| 11.15-12.15 | Topic E-2. Stakeholder Relationship Development: a) Facilitating formation of network/platform of value chain actors and b) Application of Information and communications technology (ICT) towards better market access for fresh and processed fruits and vegetables | |
| | <p>Learning Objectives:</p> <p>This lesson has been designed to improve knowledge level and skill of the trainees on networking and market access. Specifically, it will improve their capacity on the following areas:</p> <ol style="list-style-type: none"> 1. Developing relationship among the value chain actors 2. Networking among the value chain actors for improving market access of fresh and processed fruits and vegetables 3. Use of ICT tools in relation to networking towards marketing of fresh and | Power Point Presentation, Training Manual |

| | | |
|--|---|---|
| | <p>processed fruits and vegetables</p> <p>4. Networking among the stakeholders</p> | |
| 12.15-12.45 | Discussion on Topic E-2. | |
| 12.45-13.30 | Lunch and Prayer | |
| Thematic Area-F: Market Development | | |
| 13.30-14.30 | Topic F-1. Various ways to domestic market access and marketing for fruits and vegetables, contract farming and group-based marketing | |
| | <p>Learning Objectives:</p> <p>The participants will be familiar on the following issues:</p> <ol style="list-style-type: none"> 1. Various indirect and direct market access and marketing of fruits and vegetables. 2. Market access through contract farming and group marketing | Power Point Presentation, Training Manual |
| 14.30-15.00 | Discussion on Topic F-1. | |
| 15.00-16.30 | Topic F-2. Procedure of export marketing and export growth of fresh and processed fruits and vegetables | |
| | <p>Learning Objectives:</p> <p>The participants will be able to increase their knowledge level on:</p> <ol style="list-style-type: none"> 1. Step by step procedure of export marketing and export growth of fresh and processed fruits and vegetables <p>Export growth of fruits, vegetables and other agro-processed products in Bangladesh</p> | Power Point Presentation, Training Manual |
| 16.30-17.00 | Discussion on Topic F-2. | |
| Day-4 | | |
| 8:00-17:00 | Field/Factory/Pack house visit to observe the relevant practical operations/ participation in relevant hands-on training | |
| Day-5 | | |
| 8.30-9.00 | Fourth day (field visit) recap | |
| Thematic Area-G: Entrepreneurship Development | | |
| 9:00-10:00 | Topic G-1. Introduction to Development of Business Plans (Appraisal), Procedure and Government Regulations for Starting-up Agro-processing firms, product development and productivity improvement | |
| | <p>Learning Objectives:</p> <p>The participants will be familiar on:</p> <ol style="list-style-type: none"> 2. The process of preparing a business plan 3. The procedure for Starting-up Agro-processing firms. 4. The Government Regulations for Starting-up Agro-processing firms. 5. Product development and productivity improvement | Power Point Presentation, Training Manual |
| 10.00- | Discussion on Topic G-1. | |

| | | |
|--------------------|--|---|
| 10.30 | | |
| 10.30-11.30 | Topic G-2. Soft skills/ Business skills: communication, negotiation, time-management, leadership, sales and customer relationship | |
| | <p>Learning Objectives:</p> <p>The participants will be aware on:</p> <ol style="list-style-type: none"> 1. Importance of soft skill for improving performance of business 2. Practical steps to improve the skill of communication, negotiation skill, time management, leadership qualities, sales and customer relationship | Power Point Presentation, Training Manual |
| 11.30-11.45 | Tea Break | |
| 11.45-12.15 | Discussion on Topic G-2. | |
| 12.15-13.15 | Topic G-3. Cost-Benefit Analysis for an Agri-business enterprise related to fresh fruits and vegetables | |
| | <p>Learning Objectives:</p> <p>This lesson is designed to improve the trainees' knowledge and skill for running business cost effectively and ways of enhancing profitability. Specifically, they will be able to:</p> <ol style="list-style-type: none"> 1. Know the steps of estimating costs and benefits of an agri-business enterprise 2. Analyze profitability of an agri-business enterprise | Power Point Presentation, Training Manual |
| 13.15-14.00 | Lunch and Prayer | |
| 14.00-15.30 | Practical Session/Group Exercise on Cost-Benefit Analysis for an Agri-business enterprise related to fresh fruits and vegetables | Board papers/ marker pen/ board stand |
| 15.30-16.30 | Classroom survey and presentation of group leader requirements list to assess trainees' other needs including logistics/transportation, infrastructure, marketing services, financing, additional training, etc. | Board papers/ marker pen/ board stand |
| 16.30-16.45 | Post-training Evaluation of Trainers | |
| 16.45-17.00 | Closing & Certificate Distribution | |

Workshop Schedule:

| Time | Activities and Resource Speaker | Media/ Materials |
|---------------|--|--------------------------|
| 9:00-10:00 | Registration and opening session (Opening by) TBC | |
| 10:00 – 10:15 | Workshop Objectives by Mr. Mustafa Bakuluzzaman, DD, Shushilan | |
| 10.15 –10.30 | The real-life agribusiness issues raised during training sessions of and gathered customised future actions from 5 Training Programmes implemented by Team-A <i>By Concerned Trainer(s) of Team-A</i> | Power Point Presentation |
| 10.30 –10:45 | Tea Break | |
| 10.45 –11.00 | Discussion | |
| 11.00 –11.15 | The real-life agribusiness issues raised during training sessions of and gathered customised future actions from 5 Training Programmes implemented by Team-B <i>By Concerned Trainer(s) of Team-B</i> | Power Point Presentation |

| | | |
|--------------|---|--|
| 11.15 –11.30 | Discussion | |
| 11.30 –12.00 | Potential Future Actions for the Identified Entrepreneurs from the Implemented Last 10 Training Programmes <i>Dr. Sreekanta Sheel, Team Leader of the Assignment</i> | Power Point Presentation |
| 12.00 –12.30 | Discussion | |
| 12.30 –13.00 | Probable Conceptual Framework of Future Actions to be Undertaken for the Identified Trainers from the Training Programmes <i>By the Representative from BRCP (TBC)</i> | Oral Presentation |
| 13.00 –13.30 | Discussion | |
| 13.30 –14.30 | Lunch and Prayer | |
| 14.30 –15:30 | Group Exercise on Gathering Customised Actions and the Concerned Need Assessment on Training & Materials/Infrastructure | Board papers/ marker pen/ board stand |
| 15.30 –15.45 | Rapporteur's Report Presentation | Oral Presentation |
| 15.45 –16.00 | Concluding Session | |

Annex-7: Training Pre & Post Evaluation Questionnaire

বাংলাদেশের কৃষিপণ্য প্রক্রিয়াজাতকরণ খাতে নারী উদ্যোক্তাদের অংশগ্রহণ বৃদ্ধিকল্পে
দক্ষতা উন্নয়নমূলক প্রশিক্ষণ কার্যক্রম
প্রশিক্ষণ-পূর্ববর্তী মূল্যায়নের প্রশ্নপত্র

নামঃ

মোবাইল নংঃ

ঠিকানাঃ

সঠিক উত্তরের পাশে $\sqrt{\quad}$ চিহ্ন দিনঃ

সময়ঃ ১৫ মিনিট

১. নিচের কোনটি উত্তম কৃষি পদ্ধতির উদাহরণ?

- ক) রাসায়নিক সার ব্যবহার
- খ) জৈব সার ব্যবহার
- গ) কীটনাশক ব্যবহার
- ঘ) সেচের জন্য যে কোন পানি ব্যবহার

২. উচ্চ মাত্রায় নাইট্রোজেন সার ব্যবহারে নিচের কোনটি ঘটে?

- ক) স্বাদ কমে যায়
- খ) দৃঢ়তা বৃদ্ধি পায়
- গ) ফলের উজ্জ্বলতা বৃদ্ধি পায়
- ঘ) গুণগত মান বৃদ্ধি পায়

৩. ফল সংগ্রহ পরবর্তী ব্যবস্থাপনার গুরুত্ব কি?

- ক) ফলের ক্ষতির হ্রাস
- খ) সংরক্ষণ আয়ু বৃদ্ধি
- গ) আয় বাড়ানো
- ঘ) সবগুলো

৪. জেডইইসি (ZEEC) এর কার্যপরিচালনার মূলনীতি কোনটি?

- ক. হিমায়নের সাহায্যে কুলিং (ঠান্ডাকরণ)
- খ. বাষ্পীভবনের সাহায্যে কুলিং (ঠান্ডাকরণ)
- গ. তাপমাত্রা কমিয়ে কুলিং (ঠান্ডাকরণ) করা
- ঘ. ফ্রিজিং এর সাহায্যে কুলিং (ঠান্ডাকরণ)

৫. ফলের রস বোতলজাত করতে প্রতি লিটারে কি পরিমাণ কার্বন-ডাই-অক্সাইড (CO₂) যোগ করা হয়?

- ক) ১০ থেকে ১২ গ্রাম
- খ) ০.৫ থেকে ১.৫ গ্রাম
- গ) ১ থেকে ৮ গ্রাম
- ঘ) ৫ থেকে ৭ গ্রাম

৬. এইসএসিসিপি (HACCP) এর ক্ষেত্রে সাতটি মূলনীতি মেনে কাজ করতে হয়, নিচের কোনটি এই সাতটি নীতিমালার অন্তর্ভুক্ত নয়?

- ক. সিসিপি (CCP) নির্ধারণ
- খ. মূল্য নির্ধারণ
- গ. বিপত্তি (Hazard) সনাক্তকরণ
- ঘ. প্রতিটি সিসিপি (CCP) এর জন্য ক্রিটিক্যাল সীমা (CL) স্থাপন

৭. খাদ্য উৎপাদনে ব্যাচ নম্বর কি জন্য দেওয়া উচিত?

- ক) পণ্য বিক্রয় রেকর্ডে রেকর্ড না থাকার জন্যে
- খ) প্রসেসিং লগবুক এর রেকর্ড না থাকার জন্যে

গ) ব্যাচের ক্রেডিটগুলি সনাক্ত করার জন্যে

ঘ) কন্ট্রোল বই তৈরী না করার জন্যে

৮. ভ্যালু চেইন বলতে কি বুঝি?

ক) উৎপাদনকারী হতে ভোক্তা পর্যন্ত পণ্য পৌঁছানো

খ) একটি ফার্মের বিশেষ কার্যাবলী মাধ্যমে গ্রাহকের কাছে ভ্যালু বা মান প্রদান করা

গ) পণ্যকে পরিবহন করা

ঘ) কোনটিই নয়

৯. নিচের কোনটি কৃষি কাজের হটস্পট হতে পারে না?

ক) ই কৃষিক্ষেত্র

খ) এসএমই উদ্যোক্তাদের পরস্পর সংযোগ ব্যবস্থা (Networking)

গ) হরটেক্স ফাউন্ডেশন (Hortex Foundation)

ঘ) বাংলাদেশ পরিবেশ আন্দোলন

১০. টার্মিনাল বাজার কি?

ক) প্রাথমিক বাজার

খ) শহরের বাজার

গ) মহানগরের পাইকারি বাজার (Wholesale Market)

ঘ) কোনটিই নয়

১১. রপ্তানিকারকদের জন্য মূল চ্যালেঞ্জ কোনটি?

ক) বাণিজ্য ঘাটতি

খ) নির্ভরযোগ্য বাণিজ্য তথ্য

গ) বাণিজ্যের জন্যে আয়-ব্যয় বিশ্লেষণ

ঘ) উপরের সবগুলো

১২. মূলধারার বাজারে প্রবেশের জন্য প্রয়োজনীয় কি কি তথ্য সরবরাহ করা উচিত?

ক) উত্তম কৃষি অনুশীলন (জিএপি) গ্রহণ করা

খ) ট্রেসিবিলিটি সিস্টেম উন্নতিকরণ

গ) ভাল প্যাকেজিং সহ স্যানিটারি এবং ফাইটো-স্যানিটারি ব্যবস্থা করা

ঘ) উপরের সবগুলো

১৩. একটি ব্যবসার পরিকল্পনা কেন তৈরি করা হয়?

ক) ব্যবসার বাজেট তৈরি ও ঋণ গ্রহণ

খ) ব্যবসায়িক সম্পর্ক উন্নয়নের জন্যে

গ) নতুন প্রযুক্তি ব্যবহারের জন্যে

ঘ) কোনটিই নয়

১৪. বুদ্ধিবৃত্তিক দক্ষতাগুলো হলোঃ

ক) যোগাযোগ ও আলোচনা

খ) ব্যবসার প্রসার

গ) ব্যবসার নেটওয়ার্ক

ঘ) কোনটিই নয়

১৫. ব্যবসার লাভ বা মুনাফা কি?

ক) আয় - খরচ

খ) আয় + খরচ

গ) উৎপাদন খরচ- বিক্রয় মূল্য

ঘ) কোনটিই নয়

বাংলাদেশের কৃষিপণ্য প্রক্রিয়াজাতকরণ খাতে নারী উদ্যোক্তাদের অংশগ্রহন বৃদ্ধিকল্পে

দক্ষতা উন্নয়নমূলক প্রশিক্ষণ কার্যক্রম

প্রশিক্ষণ-পরবর্তী মূল্যায়নের প্রশ্নপত্র

নামঃ

মোবাইল নংঃ

ঠিকানাঃ

সঠিক উত্তরের পাশে ✓ চিহ্ন দিনঃ

সময়ঃ ১৫ মিনিট

১. নিচের কোনটি উদ্ভূত কৃষি পদ্ধতির উদাহরণ?

- ক) রাসায়নিক সার ব্যবহার
- খ) জৈব সার ব্যবহার
- গ) কীটনাশক ব্যবহার
- ঘ) সেচের জন্য যে কোন পানি ব্যবহার

২. উচ্চ মাঝায় নাইট্রোজেন সার ব্যবহারে নিচের কোনটি ঘটে?

- ক) স্বাদ কমে যায়
- খ) দৃঢ়তা বৃদ্ধি পায়
- গ) ফলের উজ্জলতা বৃদ্ধি পায়
- ঘ) গুণগত মান বৃদ্ধি পায়

৩. ফল সংগ্রহ পরবর্তী ব্যবস্থাপনার গুরুত্ব কি?

- ক) ফলের ক্ষতির হ্রাস
- খ) সংরক্ষণ আয়ু বৃদ্ধি
- গ) আয় বাড়ানো
- ঘ) সবগুলো

৪. জেডইইসি (ZEEC) এর কার্যপরিচালনার মূলনীতি কোনটি?

- ক. হিমায়নের সাহায্যে কুলিং (ঠাণ্ডাকরণ)
- খ. বাষ্পীভবনের সাহায্যে কুলিং (ঠাণ্ডাকরণ)
- গ. তাপমাত্রা কমিয়ে কুলিং (ঠাণ্ডাকরণ) করা
- ঘ. ফ্রিজিং এর সাহায্যে কুলিং (ঠাণ্ডাকরণ)

৫. ফলের রস বোতলজাত করতে প্রতি লিটারে কি পরিমাণ কার্বন-ডাই-অক্সাইড (CO₂) যোগ করা হয়?

- ক) ১০ থেকে ১২ গ্রাম
- খ) ০.৫ থেকে ৭.৫ গ্রাম

- গ) উৎপাদন খরচ- বিক্রয় মূল্য
- ঘ) কোনটিই নয়

Annex-8: Team Composition of the Training Program & Report Writing

Along with the Team leader and consultants following persons also assisted in writing the completion report-

| Sl No. | Name | Designation | Contact No. |
|--------|----------------------------|---|-------------|
| 1 | Mustafa Bakuluzzaman | Organizational Focal Person (Deputy Director & Head of Business Development Unit) | 01720505710 |
| 2 | Dr. Sreekanta Sheel | Team Leader | 01714083764 |
| 3 | Rehana Parvin | Lead Training Expert | 01764619377 |
| 4 | Prof. Dr. S M Fakhru Islam | Agro Processing Expert | 01715132408 |
| 5 | M A Mannan | Value Chain Expert | 01715309232 |
| 6 | Md. Abu Hasan | Communication Officer | 01715070509 |
| 7 | Amrita Kumer Halder | Senior Accounts Officer | 01856440136 |
| 8 | Bilkis Jahan | Master Trainer | 01787737515 |
| 9 | Md. Mahabubur Rahman | Master Trainer | 01686006105 |
| 10 | Bitopi Biswas | Trainer | 01717342255 |
| 11 | Kazi Faisal Kabir | Trainer | 01713993432 |

Annex-9: Monitoring Visit Plan of Key Expert from Shushilan

| Month | Date | Batch No. | Upazila | District | Total Participants | Team | Name of Consultant | Date of visit |
|---------------|-------------------------|-----------|---------------|-------------|--------------------|--------|-------------------------------|---------------|
| November 2020 | 22-26/11/2020 | 5 | Belabo | Narshaingdi | 25 | Team B | Prof Dr.S M Fakhrul Islam | 26.11.2020 |
| | 22-26/11/2020 | 6 | Belabo | Narshaingdi | 25 | Team A | | |
| December 2020 | 29/11/2020 3/12/2020 | 7 | Shibpur | Narshaingdi | 25 | Team A | M.A. Mannan | 1.12.2020 |
